🎬 Measuring Cylinder Bore · ANSWER KEY

Small Engines Overhaul · Unit 1 · Level 2 video guide (modified). YouTube video linked in Canvas: https://www.youtube.com/watch?v=6jsiVBDfqz4

Name: _____

Before you watch

What part moves up and down inside the cylinder?

_____

While you watch: circle the best answer

1. What is the cylinder bore?

A. The gas tank	**B. The hole the piston moves in**	C. The muffler

2. Where is the bore measured?

A. Only the top	B. Only outside	**C. Top, middle and bottom**

3. Which tools are used?

A. Bore gauge and micrometer	B. Ruler and tape	C. Screwdriver

4. Why measure in two directions?

A. To save time	B. No reason	**C. To find out-of-round wear**

After you watch: finish the sentence

5. After watching, finish the sentence:

A worn cylinder is a problem because **the piston rings cannot seal, so compression drops**

Goes with the class “Measuring cylinder bore (video notes)” (class points pts). Same points when complete.
