👩🏾‍🏫 Staff Guide · Small Engines Overhaul · Unit 2 Engine Careers (Level 1)

Level 1 = about 2nd-grade reading, with emoji and pictures. SLE students stay in the class teacher's lesson and use these pieces next to it: same topics, same order, same points.

1. How the pieces line up

Gen ed piece (Canvas: “Careers in Automotive Industry videos, Careers Assignment (Career Explorer, Engines Career Exploration, Personal Career Exploration, Career Comparison Chart), Wyotech presentation, car lift / tire / 18-wheeler brake videos”)	**Level 1 piece**
Careers in Automotive Industry (pick 7 of 17 videos)	L1/L2: pick 3 videos; use the career video guide
Career worksheets x4	Notes A-C + shared Ag Science careers pieces
Wyotech presentation handout	Slides “Training Paths”
Car lift / tire / 18-wheeler brake videos	Slides “Shop Videos” + video guide
Class slides	Deck: 13 slides, Words to Know first, “point to the picture” checks, recap
His worksheets (grouped into lessons)	Guided notes: 15 items + key
Class quiz / notes check	Quiz: 8 questions + key
Vocabulary	8 picture cards (cut apart)
—	1 game on the class site: 10 questions + a matching round

2. Supports built in

- **Read aloud** every line; student may point, say, or circle (point = full answer)
- One idea per slide; big pictures; 2–3 picture choices
- Career research: first name only, no personal info online
- Career Explorer test: staff read questions aloud

3. Add these as the IEP allows

- Read-aloud · extended time · separate setting
- Printed slides · videos paused at the “look for” part
- Cover one choice to make it 2

4. What to grade

- Careers videos: L1 notes 1 picture per video for 3 videos; L2 2 facts per video for 3-4 videos
- **Notes**: same points as his worksheets for that lesson when complete.
- **Quiz**: score, then scale to the class points.
- These are **modifications** (less content). The IEP must allow modified grading. Check with the case manager.

5. Who to ask

- Mr. Driver (SLE): changes and IEP questions.
- Facts we could not confirm in his files say “check with the class teacher”.

⚠️ Shop safety (with adult supervision)

- **Tools**: students may use all shop tools (hand tools, measuring tools, flywheel puller, valve tools, torque wrench, power tools) **with adult supervision**. Staff model first, stay at the bench, and count tools back in.
- **Eyes and body**: safety glasses on in the shop at all times; coveralls, closed-toe shoes, no loose clothing, long hair tied back, no dangling jewelry.
- **Fuel and oil**: gasoline is flammable. Drain fuel with adult supervision, outside or in a ventilated area, no sparks or flames nearby. Oily rags go in the metal safety can. Gloves for oil; wash hands after.
- **Exhaust**: engines are only started with adult supervision in a well-ventilated area or outdoors (carbon monoxide). Hot mufflers and cylinders burn: let parts cool.
- **Springs and sharp edges**: valve springs and rewind starter springs store energy; use the right tool with adult supervision and eyes protected. Blades, flywheel fins and piston rings can cut.
- **Before working on an engine**: disconnect the spark plug wire so the engine cannot start.
- **Lifting**: engines are heavy; lift with a partner, bend the knees. Car lifts, jacks and 18-wheeler work are video topics in this class.
- **Clean-up**: wipe spills right away (slips), sweep, return every tool to its spot.

👩‍🔧 Engine Careers Notes

Small Engines Overhaul · Unit 2 · Level 1

Name: _____

✏️ A. Trace the word. Then copy it.

👩‍🔧 mechanic _____

🎓 training _____

💵 wage _____

⏰ on time _____

🖼️ B. Fill in the word. Use the pictures.

5. 👩‍🔧 A _____ fixes engines.

6. 🎓 I learn a job in _____.
