📟 Compression Test

Small Engines Overhaul · Unit 4 · Level 2

Name: _____

Modified from the class “Compression Handout”.

🧺 Supplies

- ☐ 📟 **Compression gauge** with adapter
- ☐ 🔧 **Spark plug socket**
- ☐ ⚙️ **Practice engine**
- ☐ 🛢️ **Oil can** for wet test, L2/L3
- ☐ 📋 **Data sheet**

📟 Steps: check each box when you finish

1.  Disconnect the plug wire; remove the spark plug. ☐
2.  Thread the gauge in by hand. ☐
3.  Pull the rope 5 times; record PSI (dry test). ☐
4.  With adult supervision, add a teaspoon of oil to the cylinder. ☐
5.  Pull 5 times; record PSI (wet test). ☐
6.  Compare both to the spec. ☐
7.  Reinstall the plug; reconnect the wire. ☐

🚧 **Under construction:** Compression spec depends on the engines in Mr. Davis's shop; staff fill in the spec. *Check with the class teacher.*
