📖 Carburetion & Fuel: Vocabulary Picture Cards (Level 2)

Name: _____

Cut on the dashed lines. Use the cards to match, sort, or quiz a partner.

Carburetor

The part that mixes air and fuel in the right amounts for the engine.

Venturi

A narrow part of the carburetor throat where air speeds up and pressure drops, pulling fuel in.

Choke

A plate that limits air for a richer mix when starting a cold engine.

Throttle

A plate that controls how much air-fuel mix enters, changing engine speed.

Float

A part that floats on fuel in the bowl and shuts off fuel when the bowl is full.

Ethanol

Alcohol mixed into gasoline (E10). It attracts water and can gum up small engines.

Fuel stabilizer

An additive that keeps stored gas from going bad.

Air-fuel ratio

The mix of air to fuel, about 14.7 parts air to 1 part fuel by weight.
