👩‍🏫 Staff Guide · Small Engines Overhaul · Unit 5 Carburetion & Fuel (Level 1)

Level 1 = about 2nd-grade reading, with emoji and pictures. SLE students stay in the class teacher's lesson and use these pieces next to it: same topics, same order, same points.

1. How the pieces line up

Gen ed piece (Canvas: “Weeks 4-5: Carburetor Handout + Carburetor Article, Carburetor Video Handout, Carburetor Quiz, Venturi Lab, iCADEMY Bronze 8 Carburetion, iCADEMY fuel/oil topics (Stihl oil through ethanol in today's fuel)”)	**Level 1 piece**
Carburetor Handout + Article (scanned)	Deck + notes A-C; L3 reading replaces the article
Carburetor Video Handout (2 YouTube videos)	Video guide
Carburetor Quiz (paper, no key in export)	Quiz + key (team-written key)
Venturi Lab (title only)	Venturi & Carburetor lab packet (team-written)
iCADEMY Bronze 8 + fuel/oil/ethanol	Our own slides 'Fuel and Oil Care' (no STIHL content)
Class slides	Deck: 13 slides, Words to Know first, “point to the picture” checks, recap
His worksheets (grouped into lessons)	Guided notes: 15 items + key
Class quiz / notes check	Quiz: 8 questions + key
Vocabulary	8 picture cards (cut apart)
—	1 game on the class site: 10 questions + a matching round

2. Supports built in

- **Read aloud** every line; student may point, say, or circle (point = full answer)
- One idea per slide; big pictures; 2–3 picture choices
- Clear carburetor model or cutaway if available
- Straw-and-paper demo of the venturi

3. Add these as the IEP allows

- Read-aloud · extended time · separate setting
- Printed slides · videos paused at the “look for” part
- Cover one choice to make it 2

4. What to grade

- Carburetor Quiz: in class the quiz is open-notes; let students use their guided notes
- **Notes**: same points as his worksheets for that lesson when complete.
- **Quiz**: score, then scale to the class points.
- These are **modifications** (less content). The IEP must allow modified grading. Check with the case manager.

5. Who to ask

- Mr. Driver (SLE): changes and IEP questions.
- Facts we could not confirm in his files say “check with the class teacher”.

🚧 Under construction (check with the class teacher)

- **Venturi Lab**: Title only in Canvas; our lab is team-written.
- **Carburetor Article**: Scanned image, source unknown; our reading replaces it.
- **Carburetor Quiz key**: The paper quiz has no key in the export; our key is team-written.

⚠️ Shop safety (with adult supervision)

- **Tools**: students may use all shop tools (hand tools, measuring tools, flywheel puller, valve tools, torque wrench, power tools) **with adult supervision**. Staff model first, stay at the bench, and count tools back in.
- **Eyes and body**: safety glasses on in the shop at all times; coveralls, closed-toe shoes, no loose clothing, long hair tied back, no dangling jewelry.
- **Fuel and oil**: gasoline is flammable. Drain fuel with adult supervision, outside or in a ventilated area, no sparks or flames nearby. Oily rags go in the metal safety can. Gloves for oil; wash hands after.
- **Exhaust**: engines are only started with adult supervision in a well-ventilated area or outdoors (carbon monoxide). Hot mufflers and cylinders burn: let parts cool.
- **Springs and sharp edges**: valve springs and rewind starter springs store energy; use the right tool with adult supervision and eyes protected. Blades, flywheel fins and piston rings can cut.
- **Before working on an engine**: disconnect the spark plug wire so the engine cannot start.
- **Lifting**: engines are heavy; lift with a partner, bend the knees. Car lifts, jacks and 18-wheeler work are video topics in this class.
- **Clean-up**: wipe spills right away (slips), sweep, return every tool to its spot.

👩🏾‍🏫 Staff Guide · Venturi & Carburetor Lab (Level 1)

Small Engines Overhaul · Unit 5 · goes with the class “Venturi Lab + Carburetor Handout” (lab points). Level 1 = about 2nd-grade reading. Same activity, same day, same points as the class.

1. The pieces

- **Task card**: Modified from the class “Venturi Lab + Carburetor Handout”. 7 steps, one per box.
- **Prep sheet**: jobs, tools checklist, safety. Do it the day before or at the start.
- **Slides**: jobs, safety, steps, 3 checks.
- **Reflection**: replaces the written parts.
- **Game**: on the class site.

2. Prompts while they work

- Show me the first step.
- Which tool do we need now?
- Where do your hands go while the tool is turning?
- What should we do when we finish?

3. Modifications

- Model first, then the student tries with adult supervision
- Picture task card at the bench
- Parts tray with labeled cups for small parts

4. What to grade (lab points)

- Did the steps with support (photo proof)
- My Check page done
- Pointing, saying, or circling counts as a full answer.
- Modified grading only as the IEP allows. Check with the case manager.

5. Ask

- Mr. Driver (SLE).

🚧 Under construction (check with the class teacher)

- **This packet**: The class Venturi Lab is title-only in Canvas; this lab is team-written.

⚠️ Shop safety (with adult supervision)

- **Tools**: students may use all shop tools (hand tools, measuring tools, flywheel puller, valve tools, torque wrench, power tools) **with adult supervision**. Staff model first, stay at the bench, and count tools back in.
- **Eyes and body**: safety glasses on in the shop at all times; coveralls, closed-toe shoes, no loose clothing, long hair tied back, no dangling jewelry.
- **Fuel and oil**: gasoline is flammable. Drain fuel with adult supervision, outside or in a ventilated area, no sparks or flames nearby. Oily rags go in the metal safety can. Gloves for oil; wash hands after.
- **Exhaust**: engines are only started with adult supervision in a well-ventilated area or outdoors (carbon monoxide). Hot mufflers and cylinders burn: let parts cool.
- **Springs and sharp edges**: valve springs and rewind starter springs store energy; use the right tool with adult supervision and eyes protected. Blades, flywheel fins and piston rings can cut.
- **Before working on an engine**: disconnect the spark plug wire so the engine cannot start.
- **Lifting**: engines are heavy; lift with a partner, bend the knees. Car lifts, jacks and 18-wheeler work are video topics in this class.
- **Clean-up**: wipe spills right away (slips), sweep, return every tool to its spot.

⛽ Carburetion & Fuel Notes

Small Engines Overhaul · Unit 5 · Level 1

Name: _____

✏️ A. Trace the word. Then copy it.

 carburetor _____

 choke _____

 throttle _____

 gas _____

🖼️ B. Fill in the word. Use the pictures.

5.  The _____ mixes air and gas.

6.  The _____ helps a cold start.

7.  The _____ changes speed.

8.  Use fresh _____.

Word bank:  **carburetor** |  **choke** |  **gas** |  **throttle**

⭕ C. Circle the right picture.

9. The venturi makes air go…

 Stop	 Fast

10. The float keeps the gas…

 On fire	 At the right level

11. Old gas…

 Goes bad	 Gets better

🔗 D. Draw a line from the picture to the word.

	choke
	throttle
	float
	carburetor

📖 Carburetion & Fuel: Vocabulary Picture Cards (Level 1)

Name: _____

Cut on the dashed lines. Use the cards to match, sort, or quiz a partner.

Carburetor

mixes air and gas

Venturi

a narrow spot that speeds up air

Choke

helps a cold start

Throttle

controls speed

Float

keeps gas level right

Ethanol

alcohol in gas

Fuel stabilizer

keeps gas fresh

Air-fuel ratio

how much air to gas

⏳ Venturi & Carburetor Lab

Small Engines Overhaul · Unit 5 · Level 1

Name: _____

Modified from the class “Venturi Lab + Carburetor Handout”.

🧺 Supplies: get it. Check ☐.

- ☐ 🥤 **Straws** 2 per student
- ☐ 💧 **Cup of water**
- ☐ 📄 **Paper strip**
- ☐ 💧 **Practice carburetor** off the engine
- ☐ 🧼 **Carb cleaner** staff spray, ventilated
- ☐ 🥣 **Parts tray**

⏳ Do one box. Check ☐ it.

1		Glasses on.	☐
2		Hold paper under my lip.	☐
3		Blow over it. It goes up!	☐
4		Straw in water; blow across the top.	☐
5		Water goes up!	☐
6		Look at the carburetor with an adult.	☐
7		Point to choke and throttle.	☐

🚧 **Under construction:** The class Venturi Lab is title-only in Canvas; this lab is team-written. *Check with the class teacher.*

⏳ Venturi & Carburetor Lab · Get Ready

Small Engines Overhaul · Unit 5 · Level 1

Name: _____

👥 My job. Circle it.

 **Mechanic** fixes	 **Tool helper** gets tools	 **Recorder** writes	 **Clean-up captain** cleans

🧰 Get the tools. Check ☐.

- ☐  Straws
- ☐  Cup of water
- ☐  Paper strip
- ☐  Practice carburetor
- ☐  Carb cleaner
- ☐  Parts tray

⚠️ Be safe!

  Glasses on.

  Coveralls on.

  Tools with an adult.

  Staff spray.

  Clean up, wash hands.

✅ Before we start

☐ Safety glasses ☐ Coveralls ☐ Adult at bench

⏳ Venturi & Carburetor Lab · My Check

Small Engines Overhaul · Unit 5 · Level 1

Name: _____

📸 My photos. Check ☐.

- ☐ 📸 Before
- ☐ 📸 During
- ☐ 📸 After

✅ I did it! Check ☐.

- ☐ 🥽 I wore my safety gear
- ☐ 🔧 I did the engine job
- ☐ 🧽 I cleaned up
- ☐ 🤝 I helped my group

⭕ Circle one face.

🥽 **I was safe.**	😀	🙂	😕
🔧 **I did my job.**	😀	🙂	😕
⭐ **I liked it.**	😀	🙂	😕

⭐ I learned ____. Draw or write.

✅ Carburetion & Fuel Quiz

Small Engines Overhaul · Unit 5 · Level 1 · 8 questions. Circle the picture.

Name: _____

1. 💧 Mixes air and gas…

-  Muffler
-  Carburetor

2. ⏳ Narrow fast spot…

-  Venturi
-  Flywheel

3. 🚪 Cold start…

-  Choke
-  Muffler

4. 🎚️ Changes speed…

-  Gas cap
-  Throttle

5. 🛟 Keeps gas level…

-  Balloon
-  Float

6. 🌽 Alcohol in gas…

- 🌽 Ethanol
- 🥛 Milk

7. 🧪 Keeps gas fresh…

- 🧂 Salt
- 🧪 Stabilizer

8. 🌬️ Fast air…

- ⬆️ Pulls fuel up
- ❄️ Makes ice

🎬 Carburetor Videos

Small Engines Overhaul · Unit 5 · Level 1 video guide · class points pts

Name: _____

👀 Watch for these pictures.

   

Two YouTube videos linked in Canvas (watch with captions).

1. The carburetor mixes…

Air and gas

Milk

2. They take it apart with…

Tools

Teeth

3. They clean it with…

Honey

Carb cleaner

4. Small parts go…

In the trash

In a tray

⭐ **My favorite part:** _____
