Small Engines Overhaul · Unit 6 · Level 1

Ignition

TODAY'S PLAN

- ⚡ Spark plug
- 🧲 Magnets
- 📏 Gaps
- 🧪 Spark tester

Review · 5 minutes

Quick Review

- 💧 What does the carburetor mix?
- 🚪 What helps a cold start?
- ⛽ Why use fresh gas?

Words to Know

Words to Know

Spark plug
makes the spark

Magneto
magnets that make electricity

Armature (coil)
the coil near the flywheel

Air gap
space between coil and flywheel

Learn

The Spark

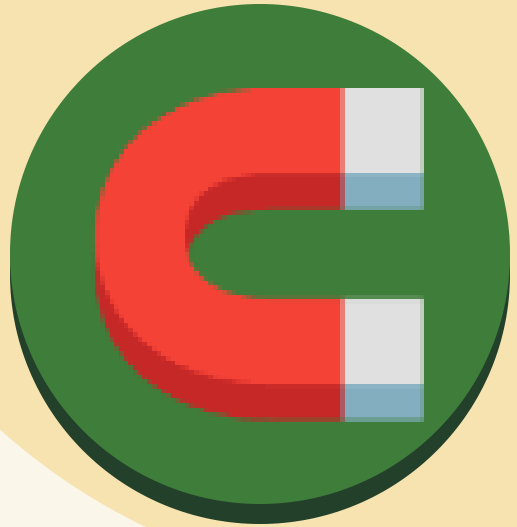

⚡ The **spark plug** makes a spark.

💥 The spark lights the gas.

⚙️ That is the power stroke!

Learn

Magnets Make the Spark

🛞 The flywheel has **magnets**.

🌀 The magnets spin past the **coil**.

⚡ The coil makes electricity. No battery!

🃏 Check 1 of 2

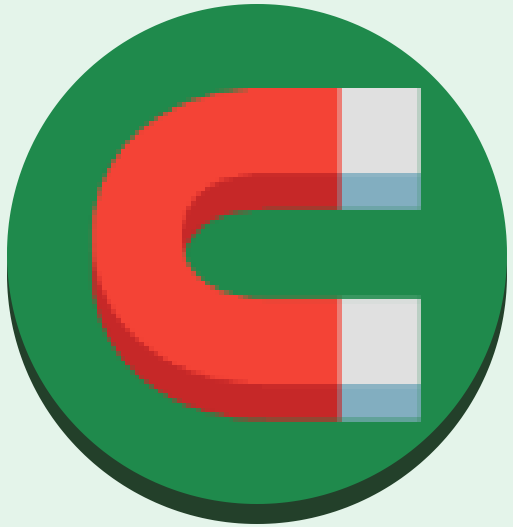

The spark is made by…

Point to the picture!

🔋 A phone battery

🧲 Magnets and a coil

✅ Answer · Card 1 of 2

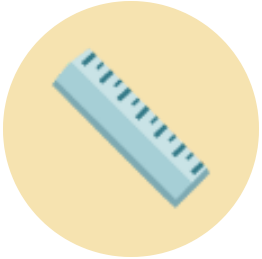

Magnets and a coil

The magneto.

Learn

Two Gaps

Plug gap
at the plug tip

Air gap
coil to flywheel

Gauge
measures gaps

Adult
checks with me

Learn

Testing the Spark

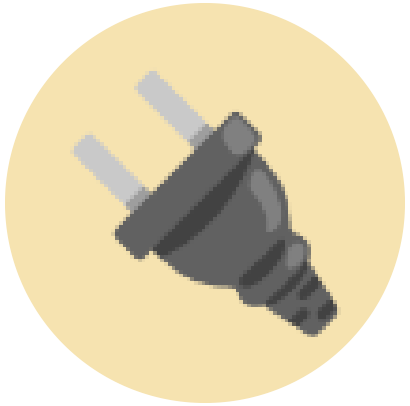

🧪 Use a **spark tester** with an adult.

🪢 Pull the rope.

👀 See a blue spark? Good!

🃏 Check 2 of 2

To stop the engine…

Point to the picture!

🔌 Kill switch

💦 Pour water

✅ Answer · Card 2 of 2

Kill switch

The kill switch stops the spark.

Wrap-Up
