Small Engines Overhaul · Unit 7 · Level 2 (modified)

Using the Repair Manual

TODAY'S PLAN

- 🏷️ Model, type and code numbers
- 🔤 Index, sections and charts
- 🔩 Parts look-up
- 🛡️ Warranty and liability

Review · 5 minutes

Quick Review

Explain how a magneto makes spark.

Name the two ignition gaps.

What does a black plug mean?

Words to Know

Words to Know

Model number

The number on the engine (often stamped on the shroud or block) that tells which manual pages and parts fit it.

Repair manual

The maker's book with steps, specs and charts for repairing an engine.

Index

The alphabetical list at the back or front that tells which section and page a topic is on.

Section

A chapter of the manual about one system, like ignition or carburetion.

Words to Know

More Words to Know

📊 **Chart**: A table in the manual that gives specs by model number.

🔩 **Part number**: The number used to look up and order the exact replacement part.

🛡️ **Warranty**: The manufacturer's promise to repair or replace a product for a set time if it fails from a defect.

⚖️ **Product liability**: The legal responsibility of makers and repair shops if a product causes harm; why shops follow the manual.

Learn

Identify the Engine

Find the **model, type and code numbers** on the engine.

The model number tells you which **charts and specs** apply.

Write it at the top of your handout.

🃏 Check 1 of 2

🔤

To find 'flywheel removal' quickly, use the…

Hold up 1, 2, or 3:

1️⃣ Cover

2️⃣ Index

3️⃣ Back of the engine

Index

Index A-Z.

Learn

Reading a Spec Chart

Find your **model number** in the left column.

Slide across to the spec you need (gap, torque, size).

Check the units: inches, ft-lb, PSI.

Learn

Parts Look-Up

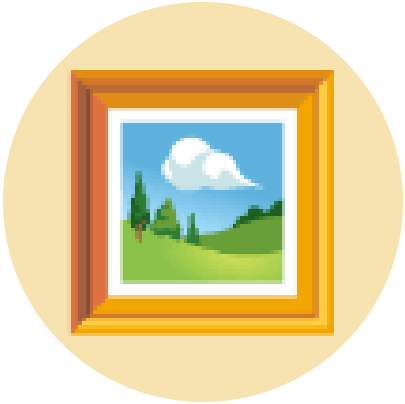

Use the **exploded diagram** to find the part.

Read its **part number** from the list.

Order by part number; check it matches the model.

🃏 Check 2 of 2

An exploded diagram shows…

Hold up 1, 2, or 3:

1️⃣ A broken engine

2️⃣ The price

3️⃣ All the parts spread out with numbers

✅ Answer · Card 2 of 2

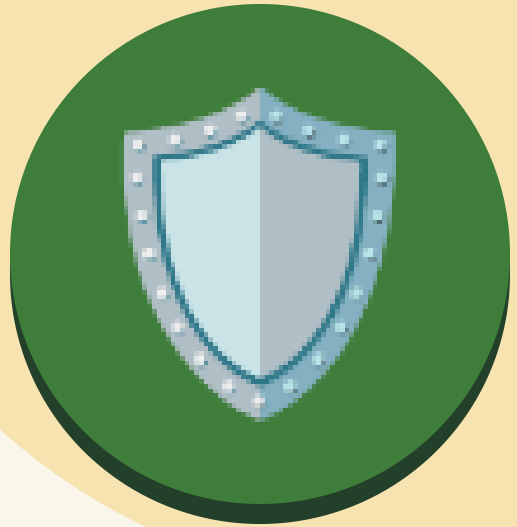

All the parts spread out with numbers

Parts view.

Compare

Warranty vs Product Liability

Warranty

Maker repairs defects for a set time
Misuse or wrong parts can void it
Keep receipts

Product liability

Makers/shops responsible if a product harms someone
Follow the manual and specs
Put safety guards back on
