Classroom & Greenhouse Basics

TODAY'S PLAN

- 🌱 What is horticulture?
- 🗺️ Greenhouse map
- 🧤 Safety contract
- 📓 Journal and leadership points

Review · 5 minutes

Quick Review

🌱 Name 2 things plants need to grow.

🧠 What is one job that uses plants?

🤔 Why do farms and greenhouses matter to our town?

Words to Know

Words to Know

Horticulture

The science and art of growing fruits, vegetables, flowers and landscape plants.

Greenhouse

A building with clear walls and roof that traps sunlight and heat so plants can grow all year.

Safety

Rules and gear that keep people from getting hurt: gloves, closed shoes, tools with an adult.

Pruners

Hand tool with sharp blades used to cut stems and branches.

Words to Know

More Words to Know

🚿 **Hose**: A long tube that carries water. Coil it up so no one trips.

📓 **Journal**: A notebook where you record dates, what you did and what you saw.

⭐ **Leadership points**: Points earned by helping at FFA events, sales and tours (30 points each semester).

🌾 **FFA**: A national student group for agriculture and horticulture that builds leadership and careers.

Learn

What Is Horticulture?

Horticulture is the science and art of growing plants.

It includes fruit, vegetables, flowers, and landscape plants.

This class grows plants in the school greenhouse and sells some at plant sales.

Learn

The Greenhouse Map

Clear walls let in **sunlight** and trap heat.

Learn where the **sinks, doors, tables, hoses and tools** are.

Know the exit and where the first aid kit is.

🃏 Check 1 of 3

Why can plants grow all year in a greenhouse?

Hold up 1, 2, or 3:

1️⃣ It has no light

2️⃣ It traps sunlight and heat

3️⃣ Plants grow only in summer

✅ Answer · Card 1 of 3

It traps sunlight and heat

Clear walls trap warmth.

Learn

Safety Contract

Gloves
for soil, sap, fertilizer

Nothing in mouth
plants can be poisonous

Sharp tools
with an adult, cut away

Wash hands
after every job

🃏 Check 2 of 3

Why is “nothing in your mouth” a greenhouse rule?

Hold up 1, 2, or 3:

1️⃣ Plants taste bad

2️⃣ It wastes plants

3️⃣ Some plants, soil and chemicals can make you sick

✅ Answer · Card 2 of 3

Some plants, soil and chemicals can make you sick

Some plants and berries are poisonous.

Learn

Tools and Water

Pruners cut stems; **trowels** dig; **watering cans** and hoses water.

Get tools from staff and give them back to be counted.

Coil hoses and wipe up water so no one slips.

🃏 Check 3 of 3

What should you do after using a hose?

Hold up 1, 2, or 3:

1️⃣ Coil it up and wipe spills

2️⃣ Leave it running

3️⃣ Spray a friend

✅ Answer · Card 3 of 3

Coil it up and wipe spills

Hoses on the floor cause slips.

Learn

Propagation Journal

All semester you keep a **journal** of plants you start.

Write the **date**, what you did, and what changed.

Photos count as proof.

Learn

Leadership Points and FFA

Earn **30 leadership points** each semester (a CTE requirement).

Points come from FFA events, plant sales, greenhouse tours and helping.

FFA is the national club for agriculture students.

Wrap-Up

Recap

Map

sinks, doors, tools, exits

Safety

gloves, no mouth, adult

Journal

date + what changed

Leadership

30 points

Wrap-Up

Exit Ticket

Name 3 safety rules for the greenhouse.

Where do tools go when you finish?

What goes in your Propagation Journal?
