Quick Review

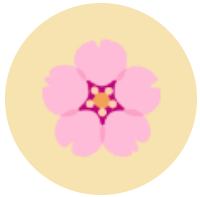

🌱 Xylem carries ___ ; phloem carries ___.

☀️ What does photosynthesis make?

🍃 Name a leaf margin word.

Words to Know

Words to Know

Petunia

Petunia: annual with trumpet-shaped simple flowers; Wave petunias spread wide.

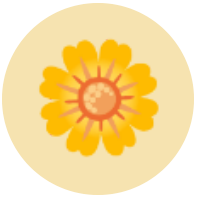

Marigold

Tagetes: annual composite flower, orange/yellow, strong smell.

Geranium

Pelargonium: annual, clusters of flowers on tall stalks, round fuzzy leaves.

Gerbera daisy

Gerbera: large composite flowers on single stems.

Words to Know

More Words to Know

🐉 **Snapdragon**: Antirrhinum: tall spikes of tube flowers that 'snap' when squeezed.

🎀 **Fuchsia**: Fuchsia: tube flowers that hang down; used in hanging baskets.

🤍 **Sweet alyssum**: Lobularia maritima: low mounds of tiny honey-scented flowers.

🍉 **Sweet potato vine**: Ipomoea batatas: grown for dark or lime leaves; trails in pots.

Steps

How to ID a Plant

1. Flower type: simple, tube or composite?
2. Leaves: form, margin, arrangement
3. Growth habit: upright, mounding, trailing, vine
4. Check the tag: common + scientific name
