👩🏾‍🏫 Staff Guide · Horticulture 1 · Unit 8 Poinsettias (Level 2)

Level 2 = about 3rd-grade reading. SLE students stay in the class teacher's lesson and use these pieces next to it: same topics, same order, same points.

1. How the pieces line up

Gen ed piece (Canvas: "Unit 8 Poinsettias (textbook Unit 13): Unit 13 questions, care chart, common pests, growing instructions, sale flier, Smith Gardens field trip, 3-plant experiment lab report, Poinsettia Portfolio, Poinsettia quizzes + final")	**Level 2 piece**
Unit 13 Questions + textbook Unit 13	Slides + notes (facts rewritten; scans not posted)
Care chart (date/action/observation)	Poinsettia Care lab packet
Common pests poster, growing instructions	Slides "Problems" + notes C
3-plant experiment + lab report	Lab Report Frame packet (L1 picture choices, L2 sentence starters, L3 paragraph frame)
Sale flier, Smith Gardens trip, Poinsettia Portfolio	Slide "Sale and Portfolio"
Poinsettia quizzes (9 + 8 Qs) + paper final	Modified quiz + game
Class slides	Deck: 19 slides, Words to Know first, hold-up-1-2-3 checks, recap
Her worksheets (grouped into lessons)	Guided notes: 11 items + key
Class quiz / notes check	Quiz: 10 questions + key
Vocabulary	9 picture cards (cut apart)
—	1 game on the class site: 10 questions + a matching round

2. Supports built in

- Short lines, key words bold, word bank in every notes box
- Quiz: 3 choices, no "all of the above"
- Real poinsettia to look at: point to bracts vs. cyathia
- Money at the sale: student is paired with staff

3. Add these as the IEP allows

- Read-aloud · extended time · separate setting
- Printed slides · videos paused at the "look for" part

4. What to grade

- Portfolio (60 pts): Level 1 = cover, care chart, thank-you card with pictures; Level 2 = all parts with sentence starters
- **Notes**: same points as her worksheets for that lesson when complete.
- **Quiz**: score, then scale to the class points.
- These are **modifications** (less content). The IEP must allow modified grading. Check with the case manager.

5. Who to ask

- Mr. Driver (SLE): changes and IEP questions.
- Facts we could not confirm in her files say "check with the class teacher".

🚧 Under construction (check with the class teacher)

- **Poinsettia Final Test**: Paper final not in the export; use our quiz.
- **Common Poinsettia Pests**: Assigned in class; not in the export.
- **Smith Gardens field trip**: Signed travel form + medical info required (in the syllabus packet).

💗 Note

Poinsettia sap: latex-family irritant. Check health plans for latex allergy; use nitrile gloves. Students never handle pesticides or growth regulators.

⚠️ Safety: tools and plants

- **Tools**: students may use all tools (pruners, knives, floral wire, low-temp glue guns) **with an adult right there**. Staff hand tools out, stay at the station, and count them back in. Cut-resistant gloves if possible.
- **Poinsettia sap** is milky and can irritate skin and eyes. Gloves on, no rubbing eyes, wash hands after.
- **Latex**: poinsettias are in the latex family. Students with a latex allergy wear non-latex (nitrile) gloves or skip handling; check health plans.
- **Bees and pollen**: check IEP/health plans for bee-sting or pollen allergies and know where the EpiPen is before greenhouse work.
- **Mouths**: no plants, soil, seeds, berries, fertilizer or rooting hormone in mouths. Students who mouth objects or have pica need one-to-one eyes in the greenhouse. Many plants (holly and mistletoe berries, some houseplants) are poisonous.
- **Chemicals**: rooting hormone and fertilizer with gloves, then wash hands. Pesticides and growth regulators are staff/teacher only; students never spray or handle them.

- **Greenhouse**: wet floors and hoses (slips), heat (water breaks), wet dry potting mix first (dust).
