🌺 Poinsettias: Guided Notes · ANSWER KEY

Horticulture 1 · Unit 8 · Level 3 (closer to the class work) · goes with Unit 13 Questions, care chart, pests, lab report, Poinsettia Portfolio, quizzes

Name: _____

Use the class slides and your reading. Key words:

poinsettia · *bract* · *cyathia* · *photoperiod* · *short-day plant* · *botrytis* · *root rot* · *whitefly* · *sap* · *sleeve*

A. Basics

1. Poinsettias are native to **Mexico**.
2. The colored parts are **bracts**; the true flowers are **cyathia**.

B. Photoperiod

3. Explain how a grower makes poinsettias turn red by December.
Give ~14 hours of total darkness each night from early October for 8-10 weeks.

C. Care

4. Fill in the table.

Problem	Cause	Prevention
Botrytis	**wet leaves**	**water soil, air flow**
Root rot	**overwatering**	**water when surface dry**
Whiteflies	**insects**	**inspect under leaves; staff treat**
