Wreaths & Floral Design

TODAY'S PLAN

- 🎄 Wreaths and swags
- 💐 Design principles
- 🌵 Succulent planters
- 💲 Pricing and the plant sale

Review · 5 minutes

Quick Review

- 🌺 Where does a poinsettia get its color?
- 🌙 What is photoperiod?
- 🍄 How do you prevent botrytis?

Words to Know

Words to Know

Floral design

The art of arranging flowers and greens so they look balanced and attractive.

Wreath

A circle of evergreen branches, often decorated, hung on doors in winter.

Swag

A bundle of branches tied at the top and hung flat on a door or wall.

Floral wire

Thin wire used to attach bundles of greens to a wreath frame.

Words to Know

More Words to Know

⚖️ **Balance**: A design principle: the arrangement looks evenly weighted.

🎯 **Focal point**: The main spot in a design that draws attention.

🌵 **Succulent**: A plant with thick leaves that store water, like jade or echeveria.

🎃 **Centerpiece**: A floral arrangement for the middle of a table, like the harvest pumpkin.

Steps

Making a Wreath

1. Cut evergreen tips 6–8 inches (adult at station)
2. Make small bundles of 3–4 tips
3. Wire each bundle to the frame, overlapping to hide the wire
4. Go all the way around; add a bow, cones or berries

Learn

Swags

A **swag** is a flat bundle of greens tied at the top.

Longest branches in back, shorter in front.

Finish with ribbon; hang on a door.

🃏 Check 1 of 3

How do you hide wire on a wreath?

Hold up 1, 2, or 3:

1️⃣ Paint it red

2️⃣ Overlap each bundle over the last one

3️⃣ Leave it showing

✅ Answer · Card 1 of 3

Overlap each bundle over the last one

Overlap.

Design Principles

Balance

looks even

Focal point

draws the eye

Proportion

size fits the container

Color harmony

colors work together

🃏 Check 2 of 3

The spot that catches your eye first is the…

Hold up 1, 2, or 3:

1️⃣ Balance

2️⃣ Container

3️⃣ Focal point

✅ Answer · Card 2 of 3

Focal point

Focal point.

Learn

Harvest Centerpiece

A hollowed **pumpkin** holds wet floral foam and flowers.

Staff carve the pumpkin; students arrange.

Low and full so guests can see over it.

Learn

Succulent Garden Planter

Succulents store water in thick leaves.

Use fast-draining **cactus mix**; water lightly.

Arrange tall in back, trailing at the edge. Watch for **spines**.

Learn

Pricing

Price = cost of materials + labor + profit.

Example: $4 materials + $2 labor + $1 profit = $7.

Inventory lists what we have to sell.

🃏 Check 3 of 3

Materials $3, labor $2, profit $1. Price?

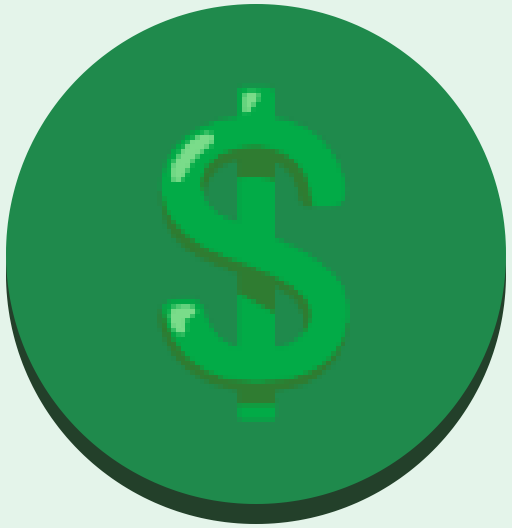

Hold up 1, 2, or 3:

1️⃣ $6

2️⃣ $3

3️⃣ $10

✅ Answer · Card 3 of 3

$6

Add them up.
