👩‍🏫 Staff Guide · Ag Science 1 · Livestock Judging (Level 3)

Level 3 = resource-room students who can work close to the gen ed lesson. Same topics and order as Mr. Torretta's class; more reading and writing than Level 2.

1. How the pieces line up

Class lesson	Level 3 piece
Livestock Judging PowerPoint (Blank Out notes)	Reading + notes sections A and B
Livestock Judging Score Card	Notes section C (placing + reason sentence)
Unit review	Quick check + unit game

2. Supports built in

- Reading and notes each have a web copy with a 🔊 Read aloud button (highlights as it reads)
- Key-word box at the top of the notes; word problems have a worked example first
- Less filled in than Level 2: short answers, tables, a drawing
- No slide decks: students follow Mr. Torretta's slides with the Level 3 notes

3. Files

- Reading (+ 🔊 web copy)
- Guided notes + key (+ 🔊 web copy)
- Quick check + key
- Unit game: 10 questions

4. What to grade

- Guided notes stand in for the matching class notes or worksheet (same points when complete)
- Quick check: score it, then scale to the class quiz points
- Reading check questions: completion points
- Modified grading only as the IEP allows. Check with the case manager.

5. Who to ask

- Mr. Driver (SLE): changes and IEP questions.
- Class content: Mr. Torretta.

Ag Science 1 · Unit 7 · Level 3 (closer to the class work) · goes with Livestock Judging PowerPoint (Blank Out notes) + Livestock Judging Score Card

Name: _____

Use the class slides and your reading. Key words:

class | *placing* | *reasons* | *muscle* | *structure* | *balance* | *condition* | *breeding animal* | *market animal* | *heifer* | *steer* | *gilt* | *barrow*

A. How judging works

1. A judging class has _____ animals.

2. You place them 1st to 4th and explain with _____.

3. Fill in the table.

Trait	What judges look at
Muscle	
Structure	
Balance	
Condition	

B. Breeding vs market

4. Fill in the table.

Animal	Breeding or market?	Species
heifer		
steer		
gilt		
barrow		

5. What do judges want in a breeding heifer?

C. Score card practice

6. Barrow A has a thick, muscular ham. Barrow B is fat over the shoulder with a flat ham. Which places higher and why?

7. Write one reason sentence: “I placed ___ over ___ because ___.”

Name: _____

How to Judge Livestock

Livestock judging is an FFA Career Development Event. A class is four animals of the same kind. The judge places them first to fourth and explains the placing with reasons.

Judges look at four big traits. Muscle is thickness in the leg, loin and ham; more muscle means more meat. Structure is feet, legs and bone; legs should be strong, straight and set square and wide. Balance means the animal is level, long and smooth. Condition is the amount of fat cover; too much fat is called over-conditioned.

Breeding animals are kept to have young, like a ewe, heifer or gilt. Judges look for a feminine head and neck, a level top, a long body and sound feet and legs. A gilt should also have an even, well-spaced underline (teats).

Market animals are raised for meat, like a lamb, steer, goat or barrow. Judges look for the most muscle, a trim middle and the right amount of fat. An ideal market barrow has a long, thick, muscular ham, a level top and legs set wide apart. An over-conditioned, light-muscled barrow has too much fat over the shoulder and a flat, narrow ham.

Key words: a heifer is a young female cow that has not had a calf; a steer is a castrated male beef animal; a gilt is a young female pig kept for breeding; a barrow is a castrated male pig raised for meat.

1. What are the four big traits judges look at?

2. How is judging a breeding animal different from a market animal?

3. What is a barrow?

🐖 Livestock Judging: Quick Check

Ag Science 1 · Unit 7 · Level 3 (closer to the class work) · goes with Livestock Judging PowerPoint (Blank Out notes) + Livestock Judging Score Card

Name: _____

Multiple choice and short answer. You may have it read aloud.

1. A market animal is raised for…

A. Meat | B. Having young | C. Milk only

2. Too much fat cover is called…

A. Level top | B. Sound | C. Over-conditioned

3. A gilt is a…

A. Castrated male pig | B. Young male cow | C. Young female pig kept for breeding

4. Structure means…

A. Fat cover | B. Feet, legs and bone | C. Color

5. Name the four big traits.

6. Why do judges want legs set wide and square?

Name: _____

Use the class slides and your reading. Key words:

class | *placing* | *reasons* | *muscle* | *structure* | *balance* | *condition* | *breeding animal* | *market animal* | *heifer* | *steer* | *gilt* | *barrow*

A. How judging works

1. A judging class has **4** animals.

2. You place them 1st to 4th and explain with **reasons**.

3. Fill in the table.

Trait	What judges look at
Muscle	**thickness in leg, loin, ham**
Structure	**feet, legs, bone**
Balance	**level, long, smooth**
Condition	**fat cover**

B. Breeding vs market

4. Fill in the table.

Animal	Breeding or market?	Species
heifer	**breeding**	**cattle**
steer	**market**	**cattle**
gilt	**breeding**	**pig**
barrow	**market**	**pig**

5. What do judges want in a breeding heifer?
Feminine head and long neck, strong level top, long wide loin, square correct feet and legs.

C. Score card practice

6. Barrow A has a thick, muscular ham. Barrow B is fat over the shoulder with a flat ham. Which places higher and why?
Barrow A: more muscle and trimmer; B is over-conditioned and light-muscled.

7. Write one reason sentence: “I placed ___ over ___ because ___.”
Example: I placed 1 over 2 because 1 has more muscle in the leg.

How to Judge Livestock

Livestock judging is an FFA Career Development Event. A class is four animals of the same kind. The judge places them first to fourth and explains the placing with reasons.

Judges look at four big traits. Muscle is thickness in the leg, loin and ham; more muscle means more meat. Structure is feet, legs and bone; legs should be strong, straight and set square and wide. Balance means the animal is level, long and smooth. Condition is the amount of fat cover; too much fat is called over-conditioned.

Breeding animals are kept to have young, like a ewe, heifer or gilt. Judges look for a feminine head and neck, a level top, a long body and sound feet and legs. A gilt should also have an even, well-spaced underline (teats).

Market animals are raised for meat, like a lamb, steer, goat or barrow. Judges look for the most muscle, a trim middle and the right amount of fat. An ideal market barrow has a long, thick, muscular ham, a level top and legs set wide apart. An over-conditioned, light-muscled barrow has too much fat over the shoulder and a flat, narrow ham.

Key words: a heifer is a young female cow that has not had a calf; a steer is a castrated male beef animal; a gilt is a young female pig kept for breeding; a barrow is a castrated male pig raised for meat.

Check your reading

1. What are the four big traits judges look at?
Muscle, structure, balance, condition.

2. How is judging a breeding animal different from a market animal?
Breeding: feminine, sound, able to have young. Market: most muscle, trim, right fat.

3. What is a barrow?
A castrated male pig raised for meat.

🐖 Livestock Judging: Quick Check · ANSWER KEY

Ag Science 1 · Unit 7 · Level 3 (closer to the class work) · goes with Livestock Judging PowerPoint (Blank Out notes) + Livestock Judging Score Card

Name: _____

Multiple choice and short answer. You may have it read aloud.

1. A market animal is raised for…

A. Meat | B. Having young | C. Milk only

2. Too much fat cover is called…

A. Level top | B. Sound | **C. Over-conditioned**

3. A gilt is a…

A. Castrated male pig | B. Young male cow | **C. Young female pig kept for breeding**

4. Structure means…

A. Fat cover | **B. Feet, legs and bone** | C. Color

5. Name the four big traits.

Muscle, structure, balance, condition.

6. Why do judges want legs set wide and square?

Sound structure lets the animal move and carry weight well (and holds more muscle).
