👩‍🏫 Staff Guide · Ag Science 1 · Final Review (Level 3)

Level 3 = resource-room students who can work close to the gen ed lesson. Same topics and order as Mr. Torretta's class; more reading and writing than Level 2.

1. How the pieces line up

Class lesson	Level 3 piece
Final Part 1: The AET	Reading part 4 + notes section B
Final Kahoot (questions not in the export)	Quick check + unit game as our own review

2. Supports built in

- Reading and notes each have a web copy with a 🔊 Read aloud button (highlights as it reads)
- Key-word box at the top of the notes; word problems have a worked example first
- Less filled in than Level 2: short answers, tables, a drawing
- No slide decks: students follow Mr. Torretta's slides with the Level 3 notes

3. Files

- Reading (+ 🔊 web copy)
- Guided notes + key (+ 🔊 web copy)
- Quick check + key
- Unit game: 10 questions

4. What to grade

- Guided notes stand in for the matching class notes or worksheet (same points when complete)
- Quick check: score it, then scale to the class quiz points
- Reading check questions: completion points
- Modified grading only as the IEP allows. Check with the case manager.

5. Who to ask

- Mr. Driver (SLE): changes and IEP questions.
- Class content: Mr. Torretta.

🍎 Final Review: Guided Notes

Ag Science 1 · Unit 8 · Level 3 (closer to the class work) · goes with Final Part 1 The AET + Final Kahoot (our own review)

Name: _____

Use the class slides and your reading. Key words:

agriculture | *seed potato* | *Cosmic Crisp* | *154* | *FFA* | *SAE* | *AET* | *Holstein* | *pasteurize* | *muscle*

A. Units 1-3

1. Whatcom leads the state in red _____.
2. Cosmic Crisp was bred at _____.
3. Each U.S. farmer feeds about _____ people.

B. Units 4-5

4. The FFA owl stands for _____.
5. My project log is the _____.
6. Write the FFA motto.

_____

C. Units 6-7

7. Fill in the table.

Word	Meaning
Holstein	
oxytocin	
condition	
barrow	

8. Which unit was your favorite? Write two facts from it.

_____

_____

🍎 Final Review: Reading

Ag Science 1 · Unit 8 · Level 3 (closer to the class work) · goes with Final Part 1 The AET + Final Kahoot (our own review)

Name: _____

Ag Science 1 in Review

Unit 1: agriculture is growing crops and raising animals for food, fiber and more. Crop rotation keeps soil healthy, and herbicides kill weeds. Whatcom County leads Washington in red raspberries and is a top dairy and seed-potato county. Exports are sold to other countries.

Unit 2: Bedlington Farms grows certified seed potatoes. Washington's wheat is mostly soft white wheat, and most is exported. Washington grows more than half of U.S. apples; Cosmic Crisp was bred at WSU from Enterprise × Honeycrisp, and grafting keeps a variety true.

Unit 3: each U.S. farmer feeds about 154 people, about 97% of farms are family-owned, and farmers get about 16 cents of each food dollar. Precision ag raises yields and lowers costs. Unit 4: FFA has the three-circle model (class, SAE, FFA), the motto, the emblem (the owl means wisdom) and CDEs and LDEs.

Unit 5: the Ag Experience (SAE) needs a topic, a clear goal and a work log; the AET (Agriculture Experience Tracker) records hours and money. Unit 6: Holsteins are about 80% of registered dairy cattle; oxytocin causes milk let-down; pasteurizing kills bacteria and homogenizing breaks up fat.

Unit 7: livestock judges place four animals using muscle, structure, balance and condition. Market animals are judged most on muscle; breeding females on femininity and soundness.

Check your reading

1. What is the AET and what goes in it?

2. Name two facts about Whatcom County agriculture.

3. Compare pasteurizing and homogenizing.

🍎 Final Review: Quick Check

Ag Science 1 · Unit 8 · Level 3 (closer to the class work) · goes with Final Part 1 The AET + Final Kahoot (our own review)

Name: _____

Multiple choice and short answer. You may have it read aloud.

1. Herbicides kill…

A. Weeds | B. Bacteria | C. Cows

2. Most Washington wheat is…

A. Fed to fish | B. Burned | C. Exported

3. About what share of U.S. farms are family-owned?

A. 10% | B. 50% | C. 97%

4. Breaking up fat in milk is…

A. Pasteurizing | B. Homogenizing | C. Grafting

5. Market animals are judged most on…

A. Muscle | B. Color | C. Height only

6. What three things make up the three-circle model?

_____

🍎 Final Review: Guided Notes · ANSWER KEY

Ag Science 1 · Unit 8 · Level 3 (closer to the class work) · goes with Final Part 1 The AET + Final Kahoot (our own review)

Name: _____

Use the class slides and your reading. Key words:

agriculture | *seed potato* | *Cosmic Crisp* | *154* | *FFA* | *SAE* | *AET* | *Holstein* | *pasteurize* | *muscle*

A. Units 1-3

1. Whatcom leads the state in red **raspberries**.
2. Cosmic Crisp was bred at **WSU**.
3. Each U.S. farmer feeds about **154** people.

B. Units 4-5

4. The FFA owl stands for **wisdom**.
5. My project log is the **AET**.
6. Write the FFA motto.
Learning to Do, Doing to Learn, Earning to Live, Living to Serve.

C. Units 6-7

7. Fill in the table.

Word	Meaning
Holstein	**black-and-white dairy breed, most milk**
oxytocin	**hormone for milk let-down**
condition	**fat cover**
barrow	**castrated male pig for meat**

8. Which unit was your favorite? Write two facts from it.
Answers vary; two correct facts.

Name: _____

Ag Science 1 in Review

Unit 1: agriculture is growing crops and raising animals for food, fiber and more. Crop rotation keeps soil healthy, and herbicides kill weeds. Whatcom County leads Washington in red raspberries and is a top dairy and seed-potato county. Exports are sold to other countries.

Unit 2: Bedlington Farms grows certified seed potatoes. Washington's wheat is mostly soft white wheat, and most is exported. Washington grows more than half of U.S. apples; Cosmic Crisp was bred at WSU from Enterprise × Honeycrisp, and grafting keeps a variety true.

Unit 3: each U.S. farmer feeds about 154 people, about 97% of farms are family-owned, and farmers get about 16 cents of each food dollar. Precision ag raises yields and lowers costs. Unit 4: FFA has the three-circle model (class, SAE, FFA), the motto, the emblem (the owl means wisdom) and CDEs and LDEs.

Unit 5: the Ag Experience (SAE) needs a topic, a clear goal and a work log; the AET (Agriculture Experience Tracker) records hours and money. Unit 6: Holsteins are about 80% of registered dairy cattle; oxytocin causes milk let-down; pasteurizing kills bacteria and homogenizing breaks up fat.

Unit 7: livestock judges place four animals using muscle, structure, balance and condition. Market animals are judged most on muscle; breeding females on femininity and soundness.

Check your reading

1. What is the AET and what goes in it?
Agriculture Experience Tracker: an online log of project hours and money.

2. Name two facts about Whatcom County agriculture.
Any two: leads in red raspberries, blueberries, top dairy county, seed potatoes.

3. Compare pasteurizing and homogenizing.
Pasteurizing heats to kill bacteria; homogenizing breaks up fat so cream doesn't rise.

🍎 Final Review: Quick Check · ANSWER KEY

Ag Science 1 · Unit 8 · Level 3 (closer to the class work) · goes with Final Part 1 The AET + Final Kahoot (our own review)

Name: _____

Multiple choice and short answer. You may have it read aloud.
