👩‍🏫 Staff Guide · Biology A · Unit 4 Food & Digestion (Level 1)

Level 1 = about 2nd-grade reading, with emoji and pictures. SLE students stay in Ms. Dunham's lesson and use these pieces next to it: same topics, same order, same points.

1. How the pieces line up

Gen ed piece (Canvas: "Unit 3 Diabetes: A2 Digestion (Bill Nye Digestion / Digestion video), A4 Digestion (food molecules notes + food reading + Food Cards), Digestive system reading (cloze) + diagram, Crash Course biomolecules")	**Level 1 piece**
A2 Digestion (Bill Nye / Digestion video) + Digestive system reading, cloze, diagram	Notes part C + slides (grouped as one lesson)
A4 Digestion: food molecules notes + food reading	Notes parts A-B
A4 Food Cards sort	Food-card sort packet (🔬 Labs & Projects)
Crash Course biomolecules	Macromolecule slides (same content)
Class slides	Deck: 17 slides, Words to Know first, "point to the picture" checks, recap
Her worksheets (grouped into lessons)	Guided notes: 15 items + key
Class quiz / notes check	Quiz: 8 questions + key
Vocabulary	10 picture cards (cut apart)
—	2 games on the class site: matching + step-by-step order

2. Supports built in

- **Read aloud** every line; student may point, say, or circle (point = full answer)
- One idea per slide; big pictures; 2–3 picture choices
- Picture anchors: 🍞 carbs = energy food, 🧱 building blocks, 🍗 protein = builds the body
- Level 1 has no molecule names beyond carb, fat, protein, sugar

3. Add these as the IEP allows

- Read-aloud · extended time · separate setting
- Printed slides · videos paused at the "look for" part
- Cover one choice to make it 2

4. What to grade

- Digestion quiz stands in for the digestion part of the Diabetes test
- **Notes**: same points as her worksheets for that lesson when complete.
- **Quiz**: score, then scale to the class points.
- These are **modifications** (less content). The IEP must allow modified grading. Check with the case manager.

5. Who to ask

- Mr. Driver, Room 113 (SLE): changes and IEP questions.
- Facts we could not confirm in her files say "check with Ms. Dunham".

🚧 Under construction (check with Ms. Dunham)

- **Her pancreas line**: Her A3.2 sheet says insulin "breaks down sugar." We wrote that insulin lets sugar into cells (that is what her A3.3 Homeostasis notes say). Please confirm.

💗 Sensitive topic note

Food talk can be sensitive (weight, family food, allergies, food access). Keep it about what food does in the body, not good/bad foods or anyone's body.

👩‍🏫 Staff Guide · Food Card Sort (Level 1)

Biology A · Unit 4 · goes with the class “A4 Digestion (Food Cards)” (5 pts). Level 1 = about 2nd-grade reading. Same activity, same day, same points as the class.

1. The pieces

- **Sort card**: A4 Digestion food-card sort, redrawn as our own picture cards (her Food Cards PDF is pictures only). 4 steps, one per box.
- **Prep sheet**: jobs, tools checklist, safety. Do it the day before or at the start.
- **Slides**: jobs, safety, steps, 2 checks.
- **Reflection**: replaces the written parts.
- **Game**: on the class site.

2. Prompts while they work

- “Is this an energy food, a fat, or a muscle-builder?”
- “Point to the carb box.”

3. Modifications

- 10 picture cards, 3 picture boxes
- No building-block words needed

4. What to grade (5 pts)

- Same 5 points: cards sorted with help as needed
- Pointing, saying, or circling counts as a full answer.
- Modified grading only as the IEP allows. Check with the case manager.

5. Ask

- Mr. Driver, Room 113 (SLE).

🚧 Under construction (check with Ms. Dunham)

- **This packet**: Her Food Cards PDF is pictures only, so we could not read which foods she uses. These 10 foods are our best match to her A4 reading (starch, sugar, cellulose, protein, fat).
