👩🏾‍🏫 Staff Guide · Biology A · Unit 8 Final Review (Level 2)

Level 2 = about 3rd-grade reading. SLE students stay in Ms. Dunham's lesson and use these pieces next to it: same topics, same order, same points.

1. How the pieces line up

Gen ed piece (Canvas: “End of semester: Final review (10 pts) + Final Exam (80 pts, paper)”)	**Level 2 piece**
Final review (10 pts)	This unit: slides, notes, practice quiz, cards, 2 games
Final Exam (80 pts, paper)	🚧 Not in the export. Use the practice final to study; modify her exam when she shares it.
Class slides	Deck: 20 slides, Words to Know first, hold-up-1-2-3 checks, recap
Her worksheets (grouped into lessons)	Guided notes: 15 items + key
Class quiz / notes check	Quiz: 10 questions + key
Vocabulary	10 picture cards (cut apart)
—	2 games on the class site: matching + step-by-step order

2. Supports built in

- Short lines, key words bold, word bank in every notes box
- Quiz: 3 choices, no “all of the above”
- One recap slide per unit with the same picture anchors as the unit decks
- Students can bring their vocabulary cards from every unit

3. Add these as the IEP allows

- Read-aloud · extended time · separate setting
- Printed slides · videos paused at the “look for” part

4. What to grade

- Practice final is for study; her Final Exam still needs a modified version
- **Notes**: same points as her worksheets for that lesson when complete.
- **Quiz**: score, then scale to the class points.
- These are **modifications** (less content). The IEP must allow modified grading. Check with the case manager.

5. Who to ask

- Mr. Driver, Room 113 (SLE): changes and IEP questions.
- Facts we could not confirm in her files say “check with Ms. Dunham”.

🚧 Under construction (check with Ms. Dunham)

- **Final Exam (80 pts, paper)**: Not in the export. We built a practice final from our unit quizzes. We need her exam to make the modified L1/L2 versions.

🏁 Final review notes (all units)

Biology A · Unit 8 Final Review · Level 2 guided notes. Use with the class slides.

Name: _____

Fill in each blank with a word from the word bank in that box. Each word is used one time.

A. Science skills + orcas (Units 0-1)

1. The variable you measure is the _____ variable.
2. Southern Resident orcas eat Chinook _____.
3. Toxins get more concentrated up the food chain: _____.

Word bank: **biomagnification** **dependent** **salmon**

B. Plants and energy (Units 2-3)

4. Photosynthesis makes glucose and _____.
5. Biodiesel from algae is a _____ fuel.
6. Match the process to its output:

photosynthesis	heat + CO2
respiration	CO2 + water + ATP
burning biodiesel	glucose + oxygen

Word bank: **oxygen** **renewable**

C. Body and fossils (Units 4-7)

7. Carbohydrates are broken into _____.
8. _____ lets glucose into cells.
9. Deeper rock layers are _____.
10. Number the path of energy (1-4):

_____ plants make glucose

_____ cells make ATP

_____ sunlight

_____ we eat and digest food

Word bank: **glucose** **Insulin** **older**

Level 2 version of the gen ed “Final review (all units).”

📖 Final Review: Vocabulary Picture Cards (Level 2)

Name: _____

Cut on the dashed lines. Use the cards to match, sort, or quiz a partner.

🥽

Goggles

Wear them any time there are chemicals, heat, or glass.

🤔

Hypothesis

A testable guess: If… then… because…

🐋

Orca

Southern Residents eat Chinook salmon and face food, toxin, and noise threats.

☠️

Biomagnification

Toxins get more concentrated up the food chain.

Photosynthesis

CO_2 + water + light → glucose + oxygen.

Biofuel

A renewable fuel made from living things, like algae oil.

Carbohydrate

Sugars and starches, made of glucose.

Respiration

Glucose + oxygen → CO_2 + water + energy (ATP).

Insulin

A hormone that lets glucose into cells.

Fossil

Remains or traces of past life. Deeper rock layers are older.

✅ Final Review Quiz

Biology A · Unit 8 · Level 2 (modified). 10 questions · 3 choices each · 1 point each.

Name: _____

Circle the best answer. You may have the questions read aloud.

1. 🔀 The variable the scientist changes is the…

A. Dependent variable | B. Independent variable | C. Control

2. 🐟 Southern Resident orcas mostly eat…

A. Seals | B. Krill | C. Chinook salmon

3. ☠️ PCBs build up in orcas because they are…

A. Fat-soluble and passed up the food chain | B. Made by orcas | C. Washed out by water

4. ☀️ The inputs of photosynthesis are…

A. Glucose and oxygen | B. Oxygen and heat | C. Carbon dioxide, water, light

5. ⛽ Biodiesel from algae is…

A. Renewable | B. Non-renewable | C. Not a fuel

6. 🍗 Proteins are made of…

A. Glucose | B. Amino acids | C. Glycerol

7. 🫁 Cellular respiration makes…

A. Glucose and oxygen | B. ATP (energy), CO2, and water | C. Insulin

8. 🔑 Insulin…

A. Lets glucose into cells | B. Raises body temperature | C. Digests protein

9. 🪨 At one site, the oldest rock layer is…

A. At the top | B. In the middle | C. At the bottom

10. 🌍 Earth is about…

A. 4.6 billion years old | B. 6,000 years old | C. 1 million years old

🏁 Final review notes (all units) · ANSWER KEY

Biology A · Unit 8 Final Review · Level 2 guided notes. Use with the class slides.

Name: _____

Fill in each blank with a word from the word bank in that box. Each word is used one time.

A. Science skills + orcas (Units 0-1)

1. The variable you measure is the **dependent** variable.
2. Southern Resident orcas eat Chinook **salmon** .
3. Toxins get more concentrated up the food chain: **biomagnification** .

Word bank: **biomagnification** **dependent** **salmon**

B. Plants and energy (Units 2-3)

4. Photosynthesis makes glucose and **oxygen** .
5. Biodiesel from algae is a **renewable** fuel.
6. Match the process to its output:

(Key: photosynthesis → glucose + oxygen · respiration → CO2 + water + ATP · burning biodiesel → heat + CO2)

photosynthesis	heat + CO2
respiration	CO2 + water + ATP
burning biodiesel	glucose + oxygen

Word bank: **oxygen** **renewable**

C. Body and fossils (Units 4-7)

7. Carbohydrates are broken into **glucose** .
8. **Insulin** lets glucose into cells.
9. Deeper rock layers are **older** .
10. Number the path of energy (1-4):

2 plants make glucose
4 cells make ATP
1 sunlight
3 we eat and digest food

Word bank: **glucose** **Insulin** **older**

✅ Final Review Quiz · ANSWER KEY

Biology A · Unit 8 · Level 2 (modified). 10 questions · 3 choices each · 1 point each.

Name: _____

Circle the best answer. You may have the questions read aloud.

1. 🔀 The variable the scientist changes is the… Unit 0

A. Dependent variable | **B. Independent variable** | C. Control

2. 🐟 Southern Resident orcas mostly eat… Unit 1

A. Seals | B. Krill | **C. Chinook salmon**

3. ☠️ PCBs build up in orcas because they are… Unit 1

A. Fat-soluble and passed up the food chain | B. Made by orcas | C. Washed out by water

4. ☀️ The inputs of photosynthesis are… Unit 2

A. Glucose and oxygen | B. Oxygen and heat | **C. Carbon dioxide, water, light**

5. ⛽ Biodiesel from algae is… Unit 3

A. Renewable | B. Non-renewable | C. Not a fuel

6. 🍗 Proteins are made of… Unit 4

A. Glucose | **B. Amino acids** | C. Glycerol

7. 🫁 Cellular respiration makes… Unit 5

A. Glucose and oxygen | **B. ATP (energy), CO2, and water** | C. Insulin

8. 🔑 Insulin… Unit 6

A. Lets glucose into cells | B. Raises body temperature | C. Digests protein

9. 🪨 At one site, the oldest rock layer is… Unit 7

A. At the top | B. In the middle | **C. At the bottom**

10. 🌍 Earth is about… Unit 7

A. 4.6 billion years old | B. 6,000 years old | C. 1 million years old

Answers

1-B · 2-C · 3-A · 4-C · 5-A · 6-B · 7-B · 8-A · 9-C · 10-A

Reworded from the gen ed "our Level 2 unit quizzes (Units 0-7)". Score: __ / 10.

🔑 Key written by our team from our unit quizzes, please check. Her Final Exam (80 pts) is on paper and not in the export; this is a practice final.
