👩‍🏫 Staff Guide · Chemistry · Unit 0 Lab Safety & Equipment (Level 2)

Level 2 = about 3rd-grade reading. SLE students stay in Mr. Brittle's lesson and use these pieces next to it: same topics, same order, same points.

1. How the pieces line up

Gen ed piece (Canvas: "Start of year: Syllabus & Safety Contract, Safety Presentation, L0.1 Lab Equipment Activity, L0.2 Elements Reacting (demos), L0.3 Equipment Practice (stations)")	**Level 2 piece**
Syllabus & Safety Contract (rules, clothing, accidents, chemicals, glassware)	Slides "Lab Rules", "Goggles", "Accidents" + notes parts A-B
Safety Presentation (🚧 not in the export)	Our slides use his Safety Contract rules instead
L0.1 Lab Equipment Activity (ClEvR poster)	Slides "Lab Tools" + vocabulary picture cards; Level 1 names the tool and its job, no ClEvR
L0.2 Elements Reacting (teacher demos: sodium, acid)	Student watches with goggles on; game + quiz safety questions
L0.3 Equipment Practice (8 stations)	Slides "Measuring tools" / "Hazard symbols" + notes part C. Staff at stations 7-8 (hot plate, NaOH)
Class slides	Deck: 21 slides, Words to Know first, hold-up-1-2-3 checks, recap
His worksheets (grouped into lessons)	Guided notes: 17 items + key
Class quiz / notes check	Quiz: 10 questions + key
Vocabulary	8 picture cards (cut apart)
—	1 game on the class site: 10 questions + a matching round

2. Supports built in

- Short lines, key words bold, word bank in every notes box
- Quiz: 3 choices, no "all of the above"
- Do a room walk: point to the goggles, eyewash, fire extinguisher and exits
- Practice "Code one" out loud once
- Picture anchors: 🥽 goggles, 🚿 eyewash, 🧯 extinguisher, ⚖️ balance

3. Add these as the IEP allows

- Read-aloud · extended time · separate setting
- Printed slides · videos paused at the "look for" part

4. What to grade

- Notes stand in for the L0.1 activity and L0.3 station sheet (same points when complete)
- Safety contract: 🚧 ask Mr. Brittle if SLE students sign his contract
- **Notes**: same points as his worksheets for that lesson when complete.
- **Quiz**: score, then scale to the class points.
- These are **modifications** (less content). The IEP must allow modified grading. Check with the case manager.

5. Who to ask

- Mr. Driver (SLE): changes and IEP questions.
- Facts we could not confirm in her files say "check with Mr. Brittle".

🚧 Under construction (check with Mr. Brittle)

- **Where the safety equipment is in his room**: We do not know where the goggles, eyewash, safety shower, fire extinguisher, fire blanket, first aid kit and exits are in Mr. Brittle's room. Staff: walk the room and fill in the "Find it in our room" box.
- **Safety Presentation**: His Week 2 "Safety Presentation" is not in the export. Our slides are built from his Safety Contract rules.
- **Safety Contract**: Our notes do not replace his signed Syllabus & Safety Contract. Ask if SLE students sign his contract (read aloud) or a shorter one.
- **L0.3 stations**: Ask which of the 8 L0.3 stations Level 1-3 students should do. Stations 7-8 use a hot plate and NaOH (corrosive); staff should be at the station.

🥽 Lab Safety & Equipment notes

Chemistry · Unit 0 Lab Safety & Equipment · Level 2 guided notes. Use with the class slides.

Name: _____

Fill in each blank with a word from the word bank in that box. Each word is used one time.

A. Lab rules (Safety Contract)

1. Do not touch equipment until the _____ says.
2. No food, drinks or _____ in the lab.
3. Keep your lab station clean and _____.
4. Circle the 3 things that are safe in the lab:

goggles on | eating chips | hair tied back | running | closed-toe shoes | sandals

Word bank: **gum** **teacher** **tidy**

B. Accidents (Safety Contract)

5. Report every spill, break, cut or _____.
6. If someone is hurt, yell “Code _____”.
7. Rinse eyes at the eyewash for _____ minutes.
8. Number the steps for a chemical in your eye (1-3):

_____ Rinse for 20 minutes

_____ Go to the eyewash station

_____ Tell the teacher

Word bank: **20** **burn** **one**

C. Lab equipment (L0.1, L0.3)

9. A graduated cylinder measures _____ in mL.
10. A balance measures mass in _____.
11. Press _____ to set the balance to zero.
12. Match the tool to its job:

beaker	temperature
test tube	small drops
thermometer	holds and mixes liquids
pipet	small amounts

Word bank: **grams** **tare** **volume**

Level 2 version of the gen ed “Safety Contract, L0.1 Lab Equipment Activity and L0.3 Equipment Practice.”

📖 Lab Safety & Equipment: Vocabulary Picture Cards (Level 2)

Name: _____

Cut on the dashed lines. Use the cards to match, sort, or quiz a partner.

🥽

Goggles

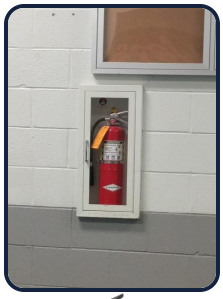

Lab glasses that protect your eyes. Wear them any time there are chemicals, heat, or glass.

🚿

Eyewash station

A sink that sprays water into your eyes. Rinse for 20 minutes if a chemical splashes.

🧯

Fire extinguisher

A red tank that sprays to put out a fire. Only the teacher uses it.

🥛

Beaker

A glass cup with a lip for pouring. It holds, mixes and heats liquids. The marks are only a guess.

Graduated cylinder

A tall, thin tube with marks to measure volume (mL). Read the bottom of the curve (meniscus).

Balance

A scale that measures mass in grams (g). Press tare to set it to zero.

Test tube

A small, narrow glass tube for holding, mixing or heating small amounts. Hold it with a test tube holder.

Hazard symbol

A label picture that tells the danger: flammable, corrosive, toxic, irritant, oxidizing, biohazard.

✅ Lab Safety & Equipment Quiz

Chemistry · Unit 0 · Level 2 (modified). 10 questions · 3 choices each · 1 point each.

Name: _____

Circle the best answer. You may have the questions read aloud.

1. 🥽 You must wear goggles when using…

A. Only fire | B. Chemicals, heat or glass | C. Only water

2. 🖐️ When you walk into the lab, you should…

A. Start mixing chemicals | B. Sit on the lab table | C. Wait to touch anything

3. 🍪 Food and drinks in the lab are…

A. Never allowed | B. OK if you are careful | C. OK in a beaker

4. 💇 Long hair should be…

A. Left down | B. Wet | C. Tied back

5. 🗣️ If your lab partner is hurt, yell…

A. Code one, Code one | B. Help me later | C. Fire drill

6. 🚿 A chemical splashes on your skin. Rinse for…

A. 5 seconds | B. 20 minutes | C. No time, just wipe it

7. 🧹 Broken glass should be cleaned up with…

A. Your bare hands | B. A brush and dustpan | C. A paper towel only

8. 📏 A graduated cylinder measures…

A. Volume | B. Mass | C. Temperature

9. ⚖️ The tare button on a balance…

A. Turns it off | B. Changes it to pounds | C. Sets it to zero

10. 🔥 A flammable chemical…

A. Can catch fire | B. Is safe to taste | C. Is just water

🚧 **Under construction:** Find it in our room: staff, show the student where the goggles, eyewash, safety shower, fire extinguisher and exits are in Mr. Brittle's room. *Check with Mr. Brittle.*

🥽 Lab Safety & Equipment notes · ANSWER KEY

Chemistry · Unit 0 Lab Safety & Equipment · Level 2 guided notes. Use with the class slides.

Name: _____

Fill in each blank with a word from the word bank in that box. Each word is used one time.

A. Lab rules (Safety Contract)

1. Do not touch equipment until the **teacher** says.
2. No food, drinks or **gum** in the lab.
3. Keep your lab station clean and **tidy**.
4. Circle the 3 things that are safe in the lab:

goggles on | eating chips | **hair tied back** | running | **closed-toe shoes** | sandals

Word bank: **gum** **teacher** **tidy**

B. Accidents (Safety Contract)

5. Report every spill, break, cut or **burn**.
6. If someone is hurt, yell “Code **one**”.
7. Rinse eyes at the eyewash for **20** minutes.
8. Number the steps for a chemical in your eye (1-3):

2 Rinse for 20 minutes

1 Go to the eyewash station

3 Tell the teacher

Word bank: **20** **burn** **one**

C. Lab equipment (L0.1, L0.3)

9. A graduated cylinder measures **volume** in mL.

10. A balance measures mass in **grams**.

11. Press **tare** to set the balance to zero.

12. Match the tool to its job:

(Key: beaker → holds and mixes liquids · test tube → small amounts · thermometer → temperature · pipet → small drops)

beaker	temperature
test tube	small drops
thermometer	holds and mixes liquids
pipet	small amounts

Word bank: **grams** **tare** **volume**

✅ Lab Safety & Equipment Quiz · ANSWER KEY

Chemistry · Unit 0 · Level 2 (modified). 10 questions · 3 choices each · 1 point each.

Name: _____

Circle the best answer. You may have the questions read aloud.

1. 🥽 You must wear goggles when using… Contract

A. Only fire | **B. Chemicals, heat or glass** | C. Only water

2. 🖐️ When you walk into the lab, you should… Contract

A. Start mixing chemicals | B. Sit on the lab table | **C. Wait to touch anything**

3. 🍪 Food and drinks in the lab are… Contract

A. Never allowed | B. OK if you are careful | C. OK in a beaker

4. 💇 Long hair should be… Contract

A. Left down | B. Wet | **C. Tied back**

5. 🗣️ If your lab partner is hurt, yell… Contract

A. Code one, Code one | B. Help me later | C. Fire drill

6. 🚿 A chemical splashes on your skin. Rinse for… Contract

A. 5 seconds | **B. 20 minutes** | C. No time, just wipe it

7. 🧹 Broken glass should be cleaned up with… Contract

A. Your bare hands | **B. A brush and dustpan** | C. A paper towel only

8. 📏 A graduated cylinder measures… L0.3

A. Volume | B. Mass | C. Temperature

9. ⚖️ The tare button on a balance… L0.3

A. Turns it off | B. Changes it to pounds | **C. Sets it to zero**

10. 🔥 A flammable chemical… L0.3

A. Can catch fire | B. Is safe to taste | C. Is just water
