👩‍🏫 Staff Guide · Chemistry · Unit 1C The Strike & Staying Safe (Level 1)

Level 1 = about 2nd-grade reading, with emoji and pictures. SLE students stay in Mr. Brittle's lesson and use these pieces next to it: same topics, same order, same points.

1. How the pieces line up

Gen ed piece (Canvas: "Unit 1 Lightning: L1.10 Energy Flow, L1.11 The Strike, L1.12 Conductors & Insulators, L1.13 No Swimming, L1.13.5 You Light Up My Life, L1.14 Unit Test + Lightning Model")	**Level 1 piece**
L1.10 Energy Flow (Concord sim) + slides	Slides "Storm cloud" / "Energy flow" + notes part A
L1.11 The Strike (NOAA / NWS sources)	Slides "The strike" + notes part A
L1.12 Conductors & Insulators (references reading)	Slides "Lets it through or stops it" + notes part B
L1.13 No Swimming (salt water lab) + L1.13.5 You Light Up My Life (conductivity lab)	Conductivity lab packet + notes part C
L1.14 Practice Test, Unit Test (paper) + Lightning Model rubric	Unit quiz below; Lightning Model: Level 1-2 label the picture model in the notes, 🚧 check with Mr. Brittle
Class slides	Deck: 17 slides, Words to Know first, "point to the picture" checks, recap
His worksheets (grouped into lessons)	Guided notes: 15 items + key
Class quiz / notes check	Quiz: 8 questions + key
Vocabulary	8 picture cards (cut apart)
—	1 game on the class site: 10 questions + a matching round

2. Supports built in

- **Read aloud** every line; student may point, say, or circle (point = full answer)
- One idea per slide; big pictures; 2–3 picture choices
- Picture anchors: 🔌 lets it through, 🧤 stops it, 🏠 inside = safe
- Safety rule to memorize: "When thunder roars, go indoors."

3. Add these as the IEP allows

- Read-aloud · extended time · separate setting
- Printed slides · videos paused at the "look for" part
- Cover one choice to make it 2

4. What to grade

- Lightning Unit Test (paper, not in the export): our unit quiz stands in until Mr. Brittle shares the test
- **Notes**: same points as his worksheets for that lesson when complete.
- **Quiz**: score, then scale to the class points.
- These are **modifications** (less content). The IEP must allow modified grading. Check with the case manager.

5. Who to ask

- Mr. Driver (SLE): changes and IEP questions.
- Facts we could not confirm in her files say "check with Mr. Brittle".

🚧 Under construction (check with Mr. Brittle)

- **L1.14 Lightning Unit Test (paper)**: Not in the export (only the practice test is). Our quiz is built from the practice test.
- **L1.14 Lightning Model (rubric)**: We did not build a modified model rubric; ask Mr. Brittle what Level 1-3 students should turn in.

👩‍🏫 Staff Guide · Conductivity Lab: What Lets Electricity Through? (Level 1)

Chemistry · Unit 1C · goes with the class “L1.13 No Swimming, L1.13.5 You Light Up My Life” (same points as the class lab). Level 1 = about 2nd-grade reading. Same activity, same day, same points as the class.

1. The pieces

- **Lab card**: L1.13 No Swimming (salt water + light bulb) and L1.13.5 You Light Up My Life (conductivity tester with solids and solutions). 7 steps, one per box. **check with Mr. Brittle**: Which chemicals Mr. Brittle uses (the class list includes copper(II) sulfate and calcium chloride)
- **Prep sheet**: jobs, tools checklist, safety. Do it the day before or at the start.
- **Slides**: jobs, safety, steps, 2 checks.
- **Reflection**: replaces the written parts.
- **Game**: on the class site.

2. Prompts while they work

- “Is the light on or off?”
- “Bright or dim?”
- “Does it let electricity through?”

3. Modifications

- Circle 💡 on / ⚫ off instead of writing
- Staff holds the tester if needed
- Point/say answers count fully

4. What to grade (same points as the class lab)

- Same points: tested, circled results, goggles on
- Pointing, saying, or circling counts as a full answer.
- Modified grading only as the IEP allows. Check with the case manager.

5. Ask

- Mr. Driver (SLE).
