# 👩‍🏫 Staff Guide · Culinary 1 · Yeast Breads (Level 3)

Level 3 = resource-room students who can work close to the gen ed lesson. Same topics and order as Mrs. Dyches's class; more reading and writing than Level 2.

## 1. How the pieces line up

| Class lesson | Level 3 piece |
|---|---|
| Yeast Breads slides | Reading + notes A and B |
| KitchenAid Mixer PowerPoint | Notes section C |
| Yeast Breads quiz | Quick check + unit game |

## 2. Supports built in

- Reading and notes each have a web copy with a 🔊 Read aloud button (highlights as it reads)
- Key-word box at the top of the notes; word problems have a worked example first
- Less filled in than Level 2: short answers, tables, a drawing
- No slide decks: students follow Mrs. Dyches's slides with the Level 3 notes

## 3. Files

- Reading (+ 🔊 web copy)
- Guided notes + key (+ 🔊 web copy)
- Quick check + key
- Unit game: 10 questions

## 4. What to grade

- Guided notes stand in for the matching class notes or worksheet (same points when complete)
- Quick check: score it, then scale to the class quiz points
- Reading check questions: completion points
- Modified grading only as the IEP allows. Check with the case manager.

## 5. Who to ask

- Mr. Driver (SLE): changes and IEP questions.
- Class content: Mrs. Dyches.

# 🥨 Yeast Breads: Guided Notes

Culinary 1 · Unit 4 · Level 3 (closer to the class work) · goes with Yeast Breads (yeast slides and KitchenAid Mixer PowerPoint)

Name: _____

*Use the class slides and your reading. Key words:*

*yeast* | *carbon dioxide* | *gluten* | *bread flour* | *knead* | *proof* | *dough hook* | *flat beater* | *wire whip*

## A. Yeast

1. Yeast makes _____ gas, so dough rises.
2. Yeast wakes up in water that is 110°F to _____ °F.
3. Water that is too hot _____ yeast.
4. _____ is food for yeast.

## B. Dough words

5. Fill in the table.

| Word | Meaning |
|---|---|
| Knead | |
| Proof | |
| Gluten | |

## C. Stand mixer and pretzels

6. Fill in the table.

| Tool | Job |
|---|---|
| Dough hook | |
| Flat beater | |
| Wire whip | |

7. Put the pretzel steps in order: shape, rise, dissolve yeast, bake, knead.

_____

_____

# 🥨 Yeast Breads: Reading

Culinary 1 · Unit 4 · Level 3 (closer to the class work) · goes with Yeast Breads (yeast slides and KitchenAid Mixer PowerPoint)

Name: _____

## Yeast Breads

Yeast is a tiny living thing. When it eats sugar, it makes carbon dioxide gas, and the gas makes dough rise. Pizza dough, pretzels, dinner rolls and cinnamon rolls are yeast breads.

Yeast wakes up in warm water, about 110°F to 120°F. Water that is too hot kills the yeast, and water that is too cold keeps it asleep. Sugar is food for yeast. Do not put salt right in the yeast water, because salt slows or kills yeast.

Gluten is the protein in flour that makes dough stretchy. Bread flour has more protein than all-purpose flour, so it makes chewier bread. To knead means to push, fold and turn the dough so the gluten gets strong. To proof means to let the dough rise.

The stand mixer has three tools. The dough hook kneads bread dough. The flat beater mixes and creams. The wire whip whips air into eggs and cream. Always lower the bowl or lift the head and turn the mixer off before you touch the tool.

For pretzels: dissolve the yeast in warm water, add the flour and salt and knead, let the dough rise, roll ropes and shape, then dip in a baking soda bath and bake.

### Check your reading

1. What does yeast need to grow?

2. Why do we knead bread dough?

3. Which mixer tool kneads dough?

# 🥨 Yeast Breads: Quick Check

Culinary 1 · Unit 4 · Level 3 (closer to the class work) · goes with Yeast Breads (yeast slides and KitchenAid Mixer PowerPoint)

Name: _____

*Multiple choice and short answer. You may have it read aloud.*

**1. Yeast makes dough rise with…**

A. Carbon dioxide gas | B. Steam only | C. Salt

**2. Water for yeast should be about…**

A. 32°F | B. 212°F | C. 110-120°F

**3. Letting dough rise is called…**

A. Creaming | B. Blanching | C. Proofing

**4. The flat beater is for…**

A. Kneading bread | B. Mixing and creaming | C. Cutting

**5. Which is a yeast bread?**

A. Cinnamon rolls | B. Muffins | C. Pancakes

6. Why don't we put salt right in the yeast water?

_____
