👩‍🏫 Staff Guide · Health · Unit 2 Food & Nutrition (Level 2)

Level 2 = about 3rd-grade reading. SLE students stay in Mr. Finstuen's lesson and use these pieces next to it: same topics, same order, same points.

1. How the pieces line up

Gen ed piece (Canvas: "Food & Nutrition module: Thoughts about the nutrition unit, Memorable Meals, Nutrient Notes & Impacts on Dimensions of Wellness, Nutrition Vocabulary, Macro and Micronutrients/Serving Sizes, digestive system diagram, Healthy Eating Plate, Design A Healthy Plate, Nutrition Labels, Sugar, Whole Foods & Farm to Fork, Meal Planning")	**Level 2 piece**
Thoughts about the nutrition unit; Memorable Meals	Review slide; Memorable Meals: student may tell or draw a favorite meal (optional, no food logs)
Nutrient Notes & Impacts on Dimensions of Wellness; Nutrition Vocabulary; Macro and Micronutrients	Slides "Nutrients", "Fats"; notes part A
Digestive system (coloring 12 parts) + Secrets of Your Gut excerpt	Slide "Digestive System" (labeled diagram); notes part B
Healthy Eating Plate Interactive; Design A Healthy Plate	Slide "Healthy Plate"; notes part B. Design a plate: student cuts or draws foods onto the plate drawing
Sugar; Nutrition Labels; Whole Foods & Farm to Fork; Meal Planning; documentaries	Slides "Sugar", "Label", "Farm to Fork"; notes part C. Meal plan: 1 breakfast, 1 lunch, 1 dinner from store flyers or websites with staff help
Class slides	Deck: 25 slides, Words to Know first, hold-up-1-2-3 checks, recap
His worksheets (grouped into lessons)	Guided notes: 21 items + key
Class quiz / notes check	Quiz: 10 questions + key
Vocabulary	8 picture cards (cut apart)
—	1 game on the class site: 10 questions + a matching round

2. Supports built in

- Short lines, key words bold, word bank in every notes box
- Quiz: 3 choices, no "all of the above"
- The plate drawing stays in front of the student for every plate question
- Sugar math: 4 g = 1 teaspoon. A calculator is OK

3. Add these as the IEP allows

- Read-aloud · extended time · separate setting
- Printed slides · videos paused at the "look for" part

4. What to grade

- Notes stand in for Nutrient Notes and Nutrition Vocabulary (same points when complete)
- Meal plan: 3 meals with a picture each = full credit
- **Notes**: same points as his worksheets for that lesson when complete.
- **Quiz**: score, then scale to the class points.
- These are **modifications** (less content). The IEP must allow modified grading. Check with the case manager.

5. Who to ask

- Mr. Driver (SLE): changes and IEP questions.
- Facts we could not confirm in his files say "check with Mr. Finstuen".

🚧 Under construction (check with Mr. Finstuen)

- **Nutrient Notes Kami pages + Nutrients Research Worksheet**: Turned in through an outside tool (Kami), so the pages are not in the export. Our notes follow his calendar topics.
- **Digestive system coloring sheet (12 parts)**: Not in the export. We use a public-domain labeled diagram instead.
- **Food documentary + Secrets of Your Gut excerpts**: Videos shown in class; titles and times are not in the export.

💗 Sensitive topic note

Food can be a hard topic. Some students live with food insecurity, and some have a difficult relationship with food or eating. Mr. Finstuen's unit opens by saying so. Never comment on what or how much a student eats, and never ask students to log what they eat. Meal plans can use any family or pretend menu. If you worry about a student's eating, tell Mr. Driver and the school counselor.

Food & Nutrition notes

Health · Unit 2 Food & Nutrition · Level 2 guided notes. Use with the class slides.

Name: _____

Fill in each blank with a word from the word bank in that box. Each word is used one time.

A. Nutrients

1. Carbohydrates, protein and fat are _____.
2. Vitamins and minerals are _____.
3. Protein builds and repairs _____.
4. Olive oil and nuts have healthier _____ fat.
5. Match the nutrient to its job:

carbohydrates	healthy blood
calcium	every cell needs it
iron	main energy
water	strong bones

Word bank: **macronutrients** **micronutrients** **muscle** **unsaturated**

B. The Digestive System and the Plate

6. Most nutrients are absorbed in the small _____.
7. Helpful bacteria in your gut are your gut _____.
8. Half the plate is vegetables and _____.
9. A quarter of the plate is whole _____.
10. Circle the 2 best drinks:

water · soda · unsweetened tea · sports drink

Word bank: **fruit** **grains** **intestine** **microbiome**

C. Labels, Sugar and Planning

11. A whole food has only one _____.

12. One teaspoon of sugar is about 4 _____.

13. On a label, 5% Daily Value is _____.

14. Number the steps from farm to fork (1-5):

_____ Processing

_____ Store

_____ Farm

_____ Travel by truck, ship or plane

_____ Your plate

Word bank: **grams** **ingredient** **low**

Level 2 version of the gen ed “Nutrient Notes + Nutrition Vocabulary.”

📖 Food & Nutrition: Vocabulary Picture Cards (Level 2)

Name: _____

Cut on the dashed lines. Use the cards to match, sort, or quiz a partner.

🍗

Macronutrients

Nutrients we need in large amounts: carbohydrates, protein and fat (and water).

💊

Micronutrients

Nutrients we need in small amounts: vitamins and minerals.

🥦

Vegetables

Plants like broccoli and carrots. With fruit, they fill half of a healthy plate.

🌾

Whole grain

A grain with all its parts, like oats, brown rice and whole wheat. A quarter of the plate.

Whole food

Food close to how it grows, with one ingredient: an apple, beans, salmon.

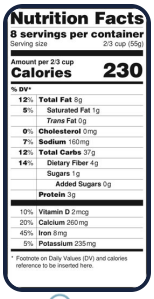

Processed food

Food changed a lot from how it grew, often with added sugar, salt or fat.

Added sugar

Sugar added to foods and drinks. A can of soda has about 10 teaspoons.

Nutrition label

The Nutrition Facts box on a package: serving size, calories, added sugars and more.

✅ Food & Nutrition Quiz

Health · Unit 2 · Level 2 (modified). 10 questions · 3 choices each · 1 point each.

Name: _____

Circle the best answer. You may have the questions read aloud.

1. 🍗 Which is a macronutrient?

A. Vitamin C | B. Protein | C. Iron

2. 💊 Vitamins and minerals are…

A. Macronutrients | B. Processed foods | C. Micronutrients

3. 🥑 Which fat should you avoid?

A. Trans fat | B. Unsaturated fat | C. Fat from nuts

4. 🫃 Most nutrients are absorbed in the…

A. Mouth | B. Esophagus | C. Small intestine

5. 🍽️ Half of the Healthy Eating Plate is…

A. Vegetables and fruit | B. Whole grains | C. Protein

6. 💧 The plate says to drink…

A. Soda | B. Water, tea or coffee | C. Lots of juice

7. 🍎 A whole food…

A. Has a long ingredient list | B. Has one ingredient | C. Is made in a factory

8. 🥄 About how many grams are in 1 teaspoon of sugar?

A. 4 | B. 40 | C. 1

9. 🏷️ On a label, 20% Daily Value is…

A. Low | B. None | C. High

10. 🏡 Cooking at home is often…

A. Healthier and cheaper | B. Always more expensive | C. Less healthy

Food & Nutrition notes · ANSWER KEY

Health · Unit 2 Food & Nutrition · Level 2 guided notes. Use with the class slides.

Name: _____

Fill in each blank with a word from the word bank in that box. Each word is used one time.

A. Nutrients

1. Carbohydrates, protein and fat are **macronutrients** .
2. Vitamins and minerals are **micronutrients** .
3. Protein builds and repairs **muscle** .
4. Olive oil and nuts have healthier **unsaturated** fat.
5. Match the nutrient to its job:

(Key: carbohydrates → main energy · calcium → strong bones · iron → healthy blood · water → every cell needs it)

carbohydrates	healthy blood
calcium	every cell needs it
iron	main energy
water	strong bones

Word bank: **macronutrients** **micronutrients** **muscle** **unsaturated**

B. The Digestive System and the Plate

6. Most nutrients are absorbed in the small **intestine** .
7. Helpful bacteria in your gut are your gut **microbiome** .
8. Half the plate is vegetables and **fruit** .
9. A quarter of the plate is whole **grains** .
10. Circle the 2 best drinks:

water soda **unsweetened tea** sports drink

Word bank: **fruit** **grains** **intestine** **microbiome**

C. Labels, Sugar and Planning

11. A whole food has only one **ingredient** .

12. One teaspoon of sugar is about 4 **grams** .

13. On a label, 5% Daily Value is **low** .

14. Number the steps from farm to fork (1-5):

2 Processing

4 Store

1 Farm

3 Travel by truck, ship or plane

5 Your plate

Word bank: **grams** **ingredient** **low**
