👩‍🏫 Staff Guide · Health · Unit 3 Substance Use & Abuse (Level 2)

Level 2 = about 3rd-grade reading. SLE students stay in Mr. Finstuen's lesson and use these pieces next to it: same topics, same order, same points.

1. How the pieces line up

Gen ed piece (Canvas: "Substance Use and Abuse module: Substance Use & Abuse Vocabulary, Progression of Use, Stages of Change, Risk and Protective Factors, Brain Development, Alcohol, Opioids & Fentanyl, Naloxone & the Good Samaritan Law, Evaluating Sources (CRAAP), School Substance Policy, Substance Use Quiz")	**Level 2 piece**
Substance Use & Abuse Vocabulary; Brain Development	Slides "Substances and the Brain"; notes part A
Progression of Use; Stages of Change	Slides "Progression", "Stages of Change"; notes parts A-B
Risk and Protective Factors (biological, psychological, social)	Slide "Risk vs. Protective" + Sam scenario, notes part B. Sort for Sam, never for the student
Alcohol; Opioids & Fentanyl; Naloxone & Good Samaritan Law	Slides "Alcohol and Overdose", "Fentanyl and Naloxone"; notes part C
Evaluating Sources (CRAAP); School Substance Policy; Substance Use Quiz	Slide "Check Your Sources"; notes part C; quick check stands in for the Substance Use Quiz
Class slides	Deck: 22 slides, Words to Know first, hold-up-1-2-3 checks, recap
His worksheets (grouped into lessons)	Guided notes: 18 items + key
Class quiz / notes check	Quiz: 10 questions + key
Vocabulary	8 picture cards (cut apart)
—	1 game on the class site: 10 questions + a matching round

2. Supports built in

- Short lines, key words bold, word bank in every notes box
- Quiz: 3 choices, no "all of the above"
- Use person-first language in all talk
- Refusal skills: practice "No thanks" with staff, not peers acting as offerers

3. Add these as the IEP allows

- Read-aloud · extended time · separate setting
- Printed slides · videos paused at the "look for" part

4. What to grade

- Quick check stands in for the Substance Use Quiz (same points)
- Notes stand in for the vocabulary and stages-of-change worksheets
- **Notes**: same points as his worksheets for that lesson when complete.
- **Quiz**: score, then scale to the class points.
- These are **modifications** (less content). The IEP must allow modified grading. Check with the case manager.

5. Who to ask

- Mr. Driver (SLE): changes and IEP questions.
- Facts we could not confirm in his files say "check with Mr. Finstuen".

🚧 Under construction (check with Mr. Finstuen)

- **School substance policy scenarios (zero-tolerance vs. restorative)**: His policy scenario sheet is not in the export; we only teach the two policy words.
- **Substance Use research slide (student-chosen drug)**: Turned in through an outside tool; the template is not in the export.
- **Guest speaker / recovery video notes**: Video titles and times are not in the export.

💗 Sensitive topic note

Some students have family members who use substances or are in recovery, and some may use themselves. Use person-first words (a person with a substance use disorder, not an addict). Never ask a student about their own or their family's use. Risk and protective factors are sorted for a made-up character, not the student. If a student shares something worrying, tell Mr. Driver and the school counselor. Crisis help: call or text 988; in an emergency call 911.

🧠 Substance Use & Abuse notes

Health · Unit 3 Substance Use & Abuse · Level 2 guided notes. Use with the class slides.

Name: _____

Fill in each blank with a word from the word bank in that box. Each word is used one time.

A. Substances and the Brain

1. A substance is anything that changes your mood or _____.
2. The brain develops until about age _____.
3. The part for decisions is the prefrontal _____.
4. Number the progression of use (1-4):

_____ Mild

_____ Severe

_____ Experimentation

_____ Moderate

Word bank: **25** **cortex** **mind**

B. Change and Factors

5. Thinking about changing is the _____ stage.
6. Keeping a change going is _____.
7. Caring adults are a _____ factor.
8. Circle the 2 risk factors (for a made-up teen, Sam):

friends who vape | plays soccer | lots of stress | close to grandma

Word bank: **contemplation** **maintenance** **protective**

C. Staying Safe

9. Fake pills can contain _____.
10. A nasal spray that reverses an opioid overdose is _____.
11. If someone won't wake up, call _____.
12. Match CRAAP:

Currency	is it backed up?
Authority	why was it made?
Accuracy	is it recent?
Purpose	who wrote it?

Word bank: **911** **fentanyl** **naloxone**

Level 2 version of the gen ed “Substance Use & Abuse Vocabulary + Stages of Change.”

📖 Substance Use & Abuse: Vocabulary Picture Cards (Level 2)

Name: _____

Cut on the dashed lines. Use the cards to match, sort, or quiz a partner.

Substance

Anything that changes your mood or mind, like alcohol, nicotine, cannabis or opioids.

Brain development

The brain keeps developing until about age 25. The part for decisions (prefrontal cortex) finishes last.

Progression

Use can move from trying it, to mild, moderate and severe use.

Stages of change

Pre-contemplation, contemplation, preparation, action, maintenance.

Protective factor

Things that lower the chance of harm, like caring adults, activities and goals.

Risk factor

Things that raise the chance of harm, like stress, peer pressure or easy access.

Fentanyl

A very strong opioid. A tiny amount can cause an overdose. It is hidden in fake pills.

Naloxone

A nasal spray (Narcan) that can reverse an opioid overdose. Call 911 too.

✅ Substance Use & Abuse Quiz

Health · Unit 3 · Level 2 (modified). 10 questions · 3 choices each · 1 point each.

Name: _____

Circle the best answer. You may have the questions read aloud.

1. 🧪 A substance is anything that…

A. Is healthy food | B. Changes your mood or mind | C. Is made of plastic

2. 🧠 The brain develops until about age…

A. 12 | B. 16 | C. 25

3. 📈 The first step in the progression of use is…

A. Experimentation | B. Severe | C. Maintenance

4. 🔄 Not thinking about changing yet is…

A. Action | B. Maintenance | C. Pre-contemplation

5. 🔁 Relapse means…

A. Going back to using | B. Never using | C. Making a plan

6. 🛡️ Which is a protective factor?

A. Easy access | B. A caring adult | C. Peer pressure

7. 💊 Fentanyl is dangerous because…

A. It is a vitamin | B. A tiny amount can cause an overdose | C. It is always labeled

8. 🚑 Naloxone (Narcan)…

A. Can reverse an opioid overdose | B. Cures alcohol use | C. Is a vape

9. 🔎 In CRAAP, Authority asks…

A. Is it recent? | B. Is it long? | C. Who wrote it?

10. 🗣️ Which is person-first language?

A. A person with a substance use disorder | B. An addict | C. A junkie

🧠 Substance Use & Abuse notes · ANSWER KEY

Health · Unit 3 Substance Use & Abuse · Level 2 guided notes. Use with the class slides.

Name: _____

Fill in each blank with a word from the word bank in that box. Each word is used one time.

A. Substances and the Brain

1. A substance is anything that changes your mood or **mind**.
2. The brain develops until about age **25**.
3. The part for decisions is the prefrontal **cortex**.
4. Number the progression of use (1-4):

2 Mild
4 Severe
1 Experimentation
3 Moderate

Word bank: **25** · **cortex** · **mind**

B. Change and Factors

5. Thinking about changing is the **contemplation** stage.
6. Keeping a change going is **maintenance**.
7. Caring adults are a **protective** factor.
8. Circle the 2 risk factors (for a made-up teen, Sam):

friends who vape · plays soccer · **lots of stress** · close to grandma

Word bank: **contemplation** · **maintenance** · **protective**

C. Staying Safe

9. Fake pills can contain **fentanyl**.

10. A nasal spray that reverses an opioid overdose is **naloxone**.

11. If someone won't wake up, call **911**.

12. Match CRAAP:

(Key: Currency → is it recent? · Authority → who wrote it? · Accuracy → is it backed up? · Purpose → why was it made?)

Currency	is it backed up?
Authority	why was it made?
Accuracy	is it recent?
Purpose	who wrote it?

Word bank: **911** **fentanyl** **naloxone**
