👩‍🏫 Staff Guide · Health · Unit 5A Sexual Health 1: Bodies, Pregnancy & Relationships (Level 3)

Level 3 = students who can work close to the gen ed lesson. No slide decks: students follow Mr. Finstuen's lesson with Level 3 readings and guided notes (both have a 🔊 read-aloud copy online).

1. How the pieces line up

Gen ed lesson	Level 3 piece
Reproductive System Anatomy & Function; Puberty	Reading paragraphs 1-2; notes part A (labeled non-graphic diagrams from the Level 2 slides)
Fertilization & Pregnancy; Birth; WA Safe Haven Law	Reading paragraph 3; notes part B
Relationship Spectrum quiz; Consent & Coercion	Reading paragraph 4; notes part C; quick check
Online Safety & Sexting Law; Gender & Sexuality Terms	Reading paragraph 5; notes part C

2. Supports built in

- Check the family opt-out list first (Healthy Youth Act)
- Reading + notes have a 🔊 read-aloud copy online
- Scenarios use made-up teens only

3. What to grade

- Quick check stands in for the Relationship Spectrum quiz
- Opted-out students: alternate assignment from Mr. Finstuen
- Modified grading only as the IEP allows. Check with the case manager.

4. Who to ask

- Mr. Driver (SLE): changes and IEP questions.
- Facts we could not confirm say “check with Mr. Finstuen”.

🚧 Under construction (check with Mr. Finstuen)

- **FLASH (King County) reproductive anatomy worksheets**: Copyrighted, so not reused. We use labeled public-domain/CC diagrams instead.
- **Pregnancy video notes**: Video and questions are not in the export.
- **Alternate (opt-out) assignment**: Mr. Finstuen's opt-out alternate is not in the export; ask him for it.

💗 Sensitive topic note

FAMILY OPT-OUT: Under Washington's Healthy Youth Act, families may opt their student out of sexual health lessons. Check Mr. Finstuen's opt-out list before this unit, and give opted-out students the alternate assignment from Mr. Finstuen. Keep lessons factual and medically accurate, using correct body-part names. Diagrams are internal, labeled and non-graphic. Students never share personal experiences; scenarios use made-up people. Answer questions simply and truthfully, or say “Great question, let's ask Mr. Finstuen.” If a student discloses abuse, you are a mandated reporter: tell Mr. Driver and the school counselor the same day. Help lines: 988; National Domestic Violence Hotline / love is respect: text LOVEIS to 22522.

🫶 Sexual Health 1: Bodies, Pregnancy & Relationships: Guided Notes

Health · Unit 5A · Level 3 (closer to the class work) · goes with Sexual Health part 1 (Anatomy, Pregnancy, Safe Haven, Relationship Spectrum, Consent, Online Safety, Identity terms)

Name: _____

Use the class slides and your reading. Key words:

ovary *fallopian tube* *uterus* *cervix* *vagina* *testicles* *vas deferens* *urethra* *penis* *puberty* *hormone* *fertilization* *trimester* *placenta* *C-section* *Safe Haven law* *consent* *coercion* *gender identity* *sexual orientation*

A. Anatomy and puberty

1. Fill in the table.

Part	System	Job
Ovary		
Uterus		
Cervix		
Testicles		
Vas deferens		
Urethra		

2. Name three changes of puberty.

_____

_____

B. Pregnancy, birth and the law

3. Fill in the table.

Trimester	Weeks	What happens
1st		
2nd		
3rd		

4. Explain Washington's Safe Haven law: who, where and when.

_____

_____

_____

C. Relationships, consent and online safety

5. Place each on the relationship spectrum (healthy, unhealthy or abusive): (a) Partner checks your phone every day. (b) You both decide where to eat. (c) Partner threatens to hurt you if you leave.

6. Jamie (a made-up teen) is asked for a nude photo by someone online. What does WA law say, and what should Jamie do?

Name: _____

Bodies, Pregnancy and Healthy Relationships

The reproductive system makes it possible to have children. In the female reproductive system, the ovaries make eggs and hormones. Each month an egg can travel through a fallopian tube toward the uterus, a muscular organ where a fetus can grow. The cervix is the lower opening of the uterus, and it connects to the vagina. In the male reproductive system, the testicles (testes) make sperm and hormones. Sperm travel through the vas deferens, glands add fluid to make semen, and semen leaves the body through the urethra in the penis.

Puberty is the time, usually between about ages 8 and 16, when hormones cause the body to mature. Changes include growth spurts, body hair, voice changes, acne and, for people with a uterus, menstruation (periods). Everyone goes through puberty at their own pace.

Fertilization happens when a sperm joins an egg, usually in a fallopian tube. The fertilized egg implants in the lining of the uterus. A full-term pregnancy lasts about 40 weeks, divided into three trimesters: in the first, the major organs form; in the second, the fetus grows and begins to move; in the third, it gains weight and gets ready for birth. The placenta passes oxygen and nutrients to the fetus through the umbilical cord. Birth happens through the vagina or by cesarean section (C-section), a surgery. Washington's Safe Haven law allows a parent to safely and anonymously leave a newborn, within 72 hours of birth, with staff at a hospital emergency department, a staffed fire station or a federally designated rural health clinic.

Relationships fall on a spectrum. Healthy relationships have respect, trust, honesty, good communication and equality. Unhealthy relationships include jealousy, pressure, dishonesty or one person making all the decisions. Abusive relationships include control, threats, isolation or physical, emotional or sexual harm. Consent is a clear, freely given and ongoing yes, and it can be taken back at any time. Coercion, using pressure, guilt or threats, is not consent, and a person who is asleep, drunk or high cannot give consent.

Online, protect your privacy and never share passwords or your location with people you don't know. In Washington, creating, sending, asking for or keeping sexual images of anyone under 18 is illegal, even if the images are of yourself or a friend. Identity terms help us understand and respect each other: sex is assigned at birth based on the body; gender identity is a person's internal sense of their gender; sexual orientation describes who a person is attracted to. Help is available from trusted adults, the school counselor, 988, and love is respect (text LOVEIS to 22522).

Check your reading

1. Trace the path of an egg from where it is made to where a fetus grows.

2. What happens in each trimester?

3. Why is coercion not consent?

🫶 Sexual Health 1: Bodies, Pregnancy & Relationships: Quick Check

Health · Unit 5A · Level 3 (closer to the class work) · goes with Sexual Health part 1 (Anatomy, Pregnancy, Safe Haven, Relationship Spectrum, Consent, Online Safety, Identity terms)

Name: _____

Multiple choice and short answer. You may have it read aloud.

1. Where does fertilization usually happen?

A. Uterus | B. Ovary | C. Fallopian tube

2. How long is a full-term pregnancy?

A. About 40 weeks | B. About 20 weeks | C. About 52 weeks

3. Which organ passes oxygen and nutrients to the fetus?

A. Cervix | B. Ovary | C. Placenta

4. “If you don't, I'll break up with you” is an example of…

A. Coercion | B. Consent | C. Communication

5. Give the three parts of a strong definition of consent.

6. What is the difference between gender identity and sexual orientation?

🫶 Sexual Health 1: Bodies, Pregnancy & Relationships: Guided Notes · ANSWER KEY

Health · Unit 5A · Level 3 (closer to the class work) · goes with Sexual Health part 1 (Anatomy, Pregnancy, Safe Haven, Relationship Spectrum, Consent, Online Safety, Identity terms)

Name: _____

Use the class slides and your reading. Key words:

ovary · *fallopian tube* · *uterus* · *cervix* · *vagina* · *testicles* · *vas deferens* · *urethra* · *penis* · *puberty* · *hormone* · *fertilization* · *trimester* · *placenta* · *C-section* · *Safe Haven law* · *consent* · *coercion* · *gender identity* · *sexual orientation*

A. Anatomy and puberty

1. Fill in the table.

Part	System	Job
Ovary	**female**	**makes eggs and hormones**
Uterus	**female**	**where a fetus grows**
Cervix	**female**	**lower opening of the uterus**
Testicles	**male**	**make sperm and hormones**
Vas deferens	**male**	**carries sperm**
Urethra	**both**	**tube carrying urine (and semen in males) out**

2. Name three changes of puberty.

Any three: growth spurt, body hair, voice change, acne, periods, sweat/body odor.

B. Pregnancy, birth and the law

3. Fill in the table.

Trimester	Weeks	What happens
1st	**1-12**	**major organs form**
2nd	**13-26**	**fetus grows, starts moving**
3rd	**27-40**	**gains weight, ready for birth**

4. Explain Washington's Safe Haven law: who, where and when.

A parent can anonymously leave a newborn within 72 hours of birth with staff at a hospital ER, staffed fire station or rural health clinic.

C. Relationships, consent and online safety

5. Place each on the relationship spectrum (healthy, unhealthy or abusive): (a) Partner checks your phone every day. (b) You both decide where to eat. (c) Partner threatens to hurt you if you leave.
(a) unhealthy, (b) healthy, (c) abusive.

6. Jamie (a made-up teen) is asked for a nude photo by someone online. What does WA law say, and what should Jamie do?
Images of anyone under 18 are illegal to make, send, ask for or keep; Jamie should say no, block/report, and tell a trusted adult.

🔑 *Key written by our team from Mr. Finstuen's worksheets and slides, please check.*
