👩‍🏫 Staff Guide · Health · Unit 5B Sexual Health 2: STIs, Contraception & Safer Sex (Level 1)

Level 1 = about 2nd-grade reading, with emoji and pictures. SLE students stay in Mr. Finstuen's lesson and use these pieces next to it: same topics, same order, same points.

1. How the pieces line up

Gen ed piece (Canvas: "Sexual Health module part 2: Abstinence, Contraception (perfect vs. typical use), Condoms, STIs (curable vs. treatable), HIV, HPV vaccine, Testing & Confidential Care, Making a Plan")	**Level 1 piece**
Abstinence	Slide "Abstinence"; notes part A
Contraception: perfect vs. typical use	Slides "Perfect vs. Typical", "Contraception Methods"; notes part A
Condoms	Slide "Condom Steps" (numbered list only, no demo); notes part C
STIs (curable vs. treatable); HIV; HPV vaccine	Slides "STIs", "How STIs Spread", "HIV and HPV"; notes part B
Testing & Confidential Care; Making a Plan	Slides "Testing", "Making a Plan"; notes part C; quick check
Class slides	Deck: 20 slides, Words to Know first, "point to the picture" checks, recap
His worksheets (grouped into lessons)	Guided notes: 15 items + key
Class quiz / notes check	Quiz: 8 questions + key
Vocabulary	8 picture cards (cut apart)
—	1 game on the class site: 10 questions + a matching round

2. Supports built in

- **Read aloud** every line; student may point, say, or circle (point = full answer)
- One idea per slide; big pictures; 2–3 picture choices
- Check the family opt-out list first (Healthy Youth Act)
- Factual, non-judgmental words only

3. Add these as the IEP allows

- Read-aloud · extended time · separate setting
- Printed slides · videos paused at the "look for" part
- Cover one choice to make it 2

4. What to grade

- Quick check stands in for the STI/contraception quiz
- Opted-out students: alternate assignment from Mr. Finstuen
- **Notes**: same points as his worksheets for that lesson when complete.
- **Quiz**: score, then scale to the class points.
- These are **modifications** (less content). The IEP must allow modified grading. Check with the case manager.

5. Who to ask

- Mr. Driver (SLE): changes and IEP questions.
- Facts we could not confirm in his files say "check with Mr. Finstuen".

🚧 Under construction (check with Mr. Finstuen)

- **Contraception research chart**: Turned in through an outside tool; the chart template is not in the export.
- **STI fact-sheet project**: Student project slides are not in the export.
- **Guest speaker (health clinic) notes**: Speaker name and questions are not in the export.

💗 Sensitive topic note

FAMILY OPT-OUT: Under Washington's Healthy Youth Act, families may opt their student out of sexual health lessons. Check Mr. Finstuen's opt-out list, and give opted-out students the alternate assignment. The Healthy Youth Act requires teaching abstinence together with medically accurate information on other methods (abstinence may not be taught alone). Use factual, non-judgmental words. No demonstrations on models; the condom steps are a numbered list only. Students never share personal experiences. If a student discloses abuse, you are a mandated reporter: tell Mr. Driver and the school counselor the same day.
