👩‍🏫 Staff Guide · Health · Unit 5B Sexual Health 2: STIs, Contraception & Safer Sex (Level 2)

Level 2 = about 3rd-grade reading. SLE students stay in Mr. Finstuen's lesson and use these pieces next to it: same topics, same order, same points.

1. How the pieces line up

Gen ed piece (Canvas: "Sexual Health module part 2: Abstinence, Contraception (perfect vs. typical use), Condoms, STIs (curable vs. treatable), HIV, HPV vaccine, Testing & Confidential Care, Making a Plan")	**Level 2 piece**
Abstinence	Slide "Abstinence"; notes part A
Contraception: perfect vs. typical use	Slides "Perfect vs. Typical", "Contraception Methods"; notes part A
Condoms	Slide "Condom Steps" (numbered list only, no demo); notes part C
STIs (curable vs. treatable); HIV; HPV vaccine	Slides "STIs", "How STIs Spread", "HIV and HPV"; notes part B
Testing & Confidential Care; Making a Plan	Slides "Testing", "Making a Plan"; notes part C; quick check
Class slides	Deck: 21 slides, Words to Know first, hold-up-1-2-3 checks, recap
His worksheets (grouped into lessons)	Guided notes: 17 items + key
Class quiz / notes check	Quiz: 10 questions + key
Vocabulary	8 picture cards (cut apart)
—	1 game on the class site: 10 questions + a matching round

2. Supports built in

- Short lines, key words bold, word bank in every notes box
- Quiz: 3 choices, no "all of the above"
- Check the family opt-out list first (Healthy Youth Act)
- Factual, non-judgmental words only

3. Add these as the IEP allows

- Read-aloud · extended time · separate setting
- Printed slides · videos paused at the "look for" part

4. What to grade

- Quick check stands in for the STI/contraception quiz
- Opted-out students: alternate assignment from Mr. Finstuen
- **Notes**: same points as his worksheets for that lesson when complete.
- **Quiz**: score, then scale to the class points.
- These are **modifications** (less content). The IEP must allow modified grading. Check with the case manager.

5. Who to ask

- Mr. Driver (SLE): changes and IEP questions.
- Facts we could not confirm in his files say "check with Mr. Finstuen".

🚧 Under construction (check with Mr. Finstuen)

- **Contraception research chart**: Turned in through an outside tool; the chart template is not in the export.
- **STI fact-sheet project**: Student project slides are not in the export.
- **Guest speaker (health clinic) notes**: Speaker name and questions are not in the export.

💗 Sensitive topic note

FAMILY OPT-OUT: Under Washington's Healthy Youth Act, families may opt their student out of sexual health lessons. Check Mr. Finstuen's opt-out list, and give opted-out students the alternate assignment. The Healthy Youth Act requires teaching abstinence together with medically accurate information on other methods (abstinence may not be taught alone). Use factual, non-judgmental words. No demonstrations on models; the condom steps are a numbered list only. Students never share personal experiences. If a student discloses abuse, you are a mandated reporter: tell Mr. Driver and the school counselor the same day.

🩺 Sexual Health 2 notes

Health · Unit 5B Sexual Health 2: STIs, Contraception & Safer Sex · Level 2 guided notes. Use with the class slides.

Name: _____

Fill in each blank with a word from the word bank in that box. Each word is used one time.

A. Abstinence and Contraception

1. The only 100% effective method is _____.
2. How a method works in real life is _____ use.
3. The implant and IUD are more than _____% effective.
4. Circle the 2 that protect against STIs:

abstinence | the pill | condoms | the implant

Word bank: **99** | **abstinence** | **typical**

B. STIs

5. STI stands for sexually transmitted _____.
6. STIs caused by bacteria are usually _____.
7. HIV attacks the _____ system.
8. Match the STI to its type:

chlamydia	curable parasite
HIV	has a vaccine
trichomoniasis	curable
HPV	treatable, not curable

Word bank: **curable** | **immune** | **infection**

C. Testing and Planning

9. The only way to know if you have an STI is to get _____.
10. In WA, teens age _____ and up can get STI care confidentially.
11. Number the condom steps (1-4):

_____ Open carefully

_____ Throw it in the trash

_____ Check the expiration date

_____ Use a new one every time

Word bank: **14** | **tested**

Level 2 version of the gen ed “Contraception + STI notes.”

📖 Sexual Health 2: STIs, Contraception & Safer Sex: Vocabulary Picture Cards (Level 2)

Name: _____

Cut on the dashed lines. Use the cards to match, sort, or quiz a partner.

🛑

Abstinence

Choosing not to have sex. The only method that is 100% effective against pregnancy and STIs.

💊

Contraception

Methods that prevent pregnancy, like the pill, the implant, the IUD and condoms.

🎯

Typical use

How well a method works with real-life mistakes. Perfect use is always used correctly.

🩹

Condom

A thin barrier that lowers the risk of both pregnancy and STIs.

STI

Sexually transmitted infection: an infection passed through sexual contact.

Curable

Can be cured with medicine (chlamydia, gonorrhea, syphilis, trichomoniasis).

HIV

A virus that attacks the immune system. Treatable, not curable.

Testing

The only way to know if you have an STI. In WA, teens 14+ can get STI care confidentially.

✅ Sexual Health 2: STIs, Contraception & Safer Sex Quiz

Health · Unit 5B · Level 2 (modified). 10 questions · 3 choices each · 1 point each.

Name: _____

Circle the best answer. You may have the questions read aloud.

1. 🛑 The only 100% effective way to prevent pregnancy and STIs is…

A. The pill | B. Abstinence | C. Luck

2. 🎯 Typical use means…

A. Perfect use | B. Never used | C. Real-life use with mistakes

3. 🌱 Which method lasts for years?

A. The IUD | B. Condoms | C. The pill

4. 🩹 Which protects against STIs?

A. The pill | B. The patch | C. Condoms

5. 💊 Which STI is curable?

A. Gonorrhea | B. HIV | C. Herpes

6. 🙈 Many STIs…

A. Are always painful | B. Have no symptoms | C. Go away alone

7. 🧬 HIV attacks the…

A. Bones | B. Immune system | C. Eyes

8. 💉 The HPV vaccine prevents…

A. Some cancers | B. Chlamydia | C. Colds
