👩‍🏫 Staff Guide · Health · Unit 6 Safety, First Aid & CPR (Level 1)

Level 1 = about 2nd-grade reading, with emoji and pictures. SLE students stay in Mr. Finstuen's lesson and use these pieces next to it: same topics, same order, same points.

1. How the pieces line up

Gen ed piece (Canvas: "Safety, First Aid & CPR module: Injury Prevention, Emergency Scenarios, When to Call 911, First Aid Basics, Heart Attack vs. Cardiac Arrest, Hands-Only CPR & AED, Choking, Summer Safety Project")	**Level 1 piece**
Injury Prevention	Slide "Injury Prevention"; notes part A
Emergency Scenarios; When to Call 911	Slides "When to Call 911", "Emergency Scenarios"; notes part A. Practice calls on a pretend phone
First Aid Basics	Slide "First Aid Basics"; notes part B
Heart Attack vs. Cardiac Arrest; Hands-Only CPR & AED	Slides "Heart Attack vs. Cardiac Arrest", "Hands-Only CPR", "AED"; notes parts B-C. Manikin practice with staff
Choking; Summer Safety Project	Slide "Choking"; notes part C. Summer safety: pick 1 topic, make a 3-picture poster
Class slides	Deck: 20 slides, Words to Know first, "point to the picture" checks, recap
His worksheets (grouped into lessons)	Guided notes: 15 items + key
Class quiz / notes check	Quiz: 8 questions + key
Vocabulary	8 picture cards (cut apart)
—	1 game on the class site: 10 questions + a matching round

2. Supports built in

- **Read aloud** every line; student may point, say, or circle (point = full answer)
- One idea per slide; big pictures; 2–3 picture choices
- Manikin only for CPR; staff models first
- Any student may step out of a scenario

3. Add these as the IEP allows

- Read-aloud · extended time · separate setting
- Printed slides · videos paused at the "look for" part
- Cover one choice to make it 2

4. What to grade

- Notes stand in for first aid and CPR worksheets
- Summer safety poster: 3 pictures + 3 tips = full credit
- **Notes**: same points as his worksheets for that lesson when complete.
- **Quiz**: score, then scale to the class points.
- These are **modifications** (less content). The IEP must allow modified grading. Check with the case manager.

5. Who to ask

- Mr. Driver (SLE): changes and IEP questions.
- Facts we could not confirm in his files say "check with Mr. Finstuen".

🚧 Under construction (check with Mr. Finstuen)

- **8 emergency scenario cards**: His scenario titles are in the export but not the full cards; we use 3 written scenarios at Level 3.
- **CPR training video + certification steps**: Video and any certificate process are not in the export.
- **Summer Safety Project rubric**: Turned in through an outside tool; the rubric is not in the export.

💗 Sensitive topic note

Some students may have been in an emergency or lost someone. Let any student step out of a scenario. CPR practice is on a manikin only, with staff; never on a person. Students do not need to share past emergencies.
