👩‍🏫 Staff Guide · Health · Unit 6 Safety, First Aid & CPR (Level 2)

Level 2 = about 3rd-grade reading. SLE students stay in Mr. Finstuen's lesson and use these pieces next to it: same topics, same order, same points.

1. How the pieces line up

Gen ed piece (Canvas: "Safety, First Aid & CPR module: Injury Prevention, Emergency Scenarios, When to Call 911, First Aid Basics, Heart Attack vs. Cardiac Arrest, Hands-Only CPR & AED, Choking, Summer Safety Project")	**Level 2 piece**
Injury Prevention	Slide "Injury Prevention"; notes part A
Emergency Scenarios; When to Call 911	Slides "When to Call 911", "Emergency Scenarios"; notes part A. Practice calls on a pretend phone
First Aid Basics	Slide "First Aid Basics"; notes part B
Heart Attack vs. Cardiac Arrest; Hands-Only CPR & AED	Slides "Heart Attack vs. Cardiac Arrest", "Hands-Only CPR", "AED"; notes parts B-C. Manikin practice with staff
Choking; Summer Safety Project	Slide "Choking"; notes part C. Summer safety: pick 1 topic, make a 3-picture poster
Class slides	Deck: 22 slides, Words to Know first, hold-up-1-2-3 checks, recap
His worksheets (grouped into lessons)	Guided notes: 18 items + key
Class quiz / notes check	Quiz: 10 questions + key
Vocabulary	8 picture cards (cut apart)
—	1 game on the class site: 10 questions + a matching round

2. Supports built in

- Short lines, key words bold, word bank in every notes box
- Quiz: 3 choices, no "all of the above"
- Manikin only for CPR; staff models first
- Any student may step out of a scenario

3. Add these as the IEP allows

- Read-aloud · extended time · separate setting
- Printed slides · videos paused at the "look for" part

4. What to grade

- Notes stand in for first aid and CPR worksheets
- Summer safety poster: 3 pictures + 3 tips = full credit
- **Notes**: same points as his worksheets for that lesson when complete.
- **Quiz**: score, then scale to the class points.
- These are **modifications** (less content). The IEP must allow modified grading. Check with the case manager.

5. Who to ask

- Mr. Driver (SLE): changes and IEP questions.
- Facts we could not confirm in his files say "check with Mr. Finstuen".

🚧 Under construction (check with Mr. Finstuen)

- **8 emergency scenario cards**: His scenario titles are in the export but not the full cards; we use 3 written scenarios at Level 3.
- **CPR training video + certification steps**: Video and any certificate process are not in the export.
- **Summer Safety Project rubric**: Turned in through an outside tool; the rubric is not in the export.

💗 Sensitive topic note

Some students may have been in an emergency or lost someone. Let any student step out of a scenario. CPR practice is on a manikin only, with staff; never on a person. Students do not need to share past emergencies.

🚑 Safety, First Aid & CPR notes

Health · Unit 6 Safety, First Aid & CPR · Level 2 guided notes. Use with the class slides.

Name: _____

Fill in each blank with a word from the word bank in that box. Each word is used one time.

A. Prevention and 911

1. The best way to stay safe in a car is a seat _____.
2. Tell 911 where you are and what _____.
3. First aid steps: Check, Call, _____.
4. Circle the 2 that need 911:

not breathing | small scrape | house fire | a headache

Word bank: **belt** **Care** **happened**

B. First Aid and the Heart

5. For bleeding, press firmly with a clean _____.
6. Cool a burn with running _____.
7. When the heart suddenly stops, it is cardiac _____.
8. Match:

heart attack	talks you through a shock
cardiac arrest	hands on throat
AED	awake, chest pain
choking	collapsed, not breathing

Word bank: **arrest** **cloth** **water**

C. CPR and Choking

9. Push at least 2 _____ deep.
10. Push 100-120 times a _____.
11. For choking, give abdominal _____.
12. Number hands-only CPR (1-4):

_____ Call 911 and get an AED
_____ Keep going until help arrives
_____ Check: tap and shout
_____ Push hard in the center of the chest

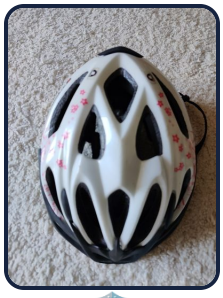

Word bank: **inches** **minute** **thrusts**

Level 2 version of the gen ed “Hands-Only CPR + First Aid notes.”

📖 Safety, First Aid & CPR: Vocabulary Picture Cards (Level 2)

Name: _____

Cut on the dashed lines. Use the cards to match, sort, or quiz a partner.

Injury prevention

Steps that stop injuries before they happen, like helmets and seat belts.

911

Call for danger to life: not breathing, bad bleeding, fire, crime happening.

First aid

The first help given to a hurt or sick person before a doctor.

Heart attack

Blood flow to the heart is blocked. The person is awake, with chest pain.

💔

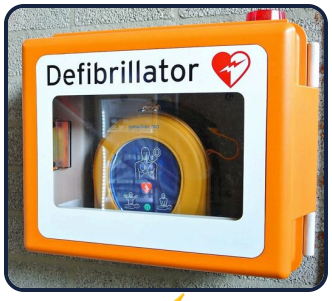

Cardiac arrest

The heart suddenly stops pumping. The person collapses and is not breathing normally.

👐

CPR

Hands-only CPR: push hard (2 inches) and fast (100-120 a minute) in the center of the chest.

⚡

AED

Automated external defibrillator. It talks you through each step.

🫁

Choking

Something blocks the airway. Give abdominal thrusts (Heimlich) if they can't cough or talk.

✅ Safety, First Aid & CPR Quiz

Health · Unit 6 · Level 2 (modified). 10 questions · 3 choices each · 1 point each.

Name: _____

Circle the best answer. You may have the questions read aloud.

1. 🚗 The best way to stay safe in a car is…

A. A loud radio | B. A seat belt | C. A snack

2. 🪖 A helmet protects your…

A. Feet | B. Hands | C. Brain

3. 📞 Which is a 911 call?

A. Someone isn't breathing | B. A paper cut | C. A lost phone

4. ✅ The first step of first aid is…

A. Run away | B. Give food | C. Check the scene is safe

5. 🔥 Cool a burn with…

A. Running water | B. Butter | C. Ice cream

6. ❤️ In a heart attack the person is usually…

A. Not breathing | B. Awake with chest pain | C. Asleep

7. 💔 Cardiac arrest needs…

A. A nap | B. 911, CPR and an AED | C. A snack

8. 👐 Hands-only CPR depth is at least…

A. 2 inches | B. 1/2 inch | C. 6 inches

9. ⚡ An AED…

A. Needs a doctor | B. Is only for hospitals | C. Tells you what to do

10. 🫁 Someone can't cough or talk. Give…

A. Abdominal thrusts | B. Water | C. A pat on the head

🚑 Safety, First Aid & CPR notes · ANSWER KEY

Health · Unit 6 Safety, First Aid & CPR · Level 2 guided notes. Use with the class slides.

Name: _____

Fill in each blank with a word from the word bank in that box. Each word is used one time.

A. Prevention and 911

1. The best way to stay safe in a car is a seat **belt**.
2. Tell 911 where you are and what **happened**.
3. First aid steps: Check, Call, **Care**.
4. Circle the 2 that need 911:

not breathing | small scrape | **house fire** | a headache

Word bank: **belt** **Care** **happened**

B. First Aid and the Heart

5. For bleeding, press firmly with a clean **cloth**.
6. Cool a burn with running **water**.
7. When the heart suddenly stops, it is cardiac **arrest**.
8. Match:

(Key: heart attack → awake, chest pain · cardiac arrest → collapsed, not breathing · AED → talks you through a shock · choking → hands on throat)

heart attack	talks you through a shock
cardiac arrest	hands on throat
AED	awake, chest pain
choking	collapsed, not breathing

Word bank: **arrest** **cloth** **water**

C. CPR and Choking

9. Push at least 2 **inches** deep.

10. Push 100-120 times a **minute** .

11. For choking, give abdominal **thrusts** .

12. Number hands-only CPR (1-4):

2 Call 911 and get an AED

4 Keep going until help arrives

1 Check: tap and shout

3 Push hard in the center of the chest

Word bank: **inches** **minute** **thrusts**
