# 👩‍🏫 Staff Guide · Horticulture 1 · Unit 7 Propagation (Level 1)

Level 1 = about 2nd-grade reading, with emoji and pictures. SLE students stay in the class teacher's lesson and use these pieces next to it: same topics, same order, same points.

## 1. How the pieces line up

| **Gen ed piece (Canvas: "Unit 7 Propagation: Propagation Methods slides (separation of hen and chicks, leaf cuttings with rooting hormone, stem cuttings), vegetable asexual propagation worksheet, Propagation Journal")** | **Level 1 piece** |
|---|---|
| Propagation Methods slides (hen & chicks, leaf blade cuttings with rooting hormone, stem cuttings) | Slides + notes B + Cuttings lab packet |
| Vegetable Propagation worksheet | Slide "Vegetable Propagation" + notes C + quiz |
| Propagation Journal (ongoing) | Cuttings packet reflection = journal entry |
| Class slides | Deck: 16 slides, Words to Know first, "point to the picture" checks, recap |
| Her worksheets (grouped into lessons) | Guided notes: 15 items + key |
| Class quiz / notes check | Quiz: 8 questions + key |
| Vocabulary | 9 picture cards (cut apart) |
| — | 1 game on the class site: 10 questions + a matching round |

## 2. Supports built in

- **Read aloud** every line; student may point, say, or circle (point = full answer)
- One idea per slide; big pictures; 2–3 picture choices
- Hands-on first, then name the method
- Level 1: picture sort seed vs. cutting

## 3. Add these as the IEP allows

- Read-aloud · extended time · separate setting
- Printed slides · videos paused at the "look for" part
- Cover one choice to make it 2

## 4. What to grade

- Vegetable Propagation worksheet: use notes C
- **Notes**: same points as her worksheets for that lesson when complete.
- **Quiz**: score, then scale to the class points.
- These are **modifications** (less content). The IEP must allow modified grading. Check with the case manager.

## 5. Who to ask

- Mr. Driver (SLE): changes and IEP questions.
- Facts we could not confirm in her files say "check with the class teacher".

## 🚧 Under construction (check with the class teacher)

- **Textbook Unit 7**: No textbook scan for Unit 7; notes are team-written from her slides (only 2 slides had text).
- **Propagation quiz**: No class quiz in the export; our quiz is team-written.

## ⚠️ Safety: tools and plants

- **Tools**: students may use all tools (pruners, knives, floral wire, low-temp glue guns) **with an adult right there**. Staff hand tools out, stay at the station, and count them back in. Cut-resistant gloves if possible.
- **Poinsettia sap** is milky and can irritate skin and eyes. Gloves on, no rubbing eyes, wash hands after.
- **Latex**: poinsettias are in the latex family. Students with a latex allergy wear non-latex (nitrile) gloves or skip handling; check health plans.
- **Bees and pollen**: check IEP/health plans for bee-sting or pollen allergies and know where the EpiPen is before greenhouse work.
- **Mouths**: no plants, soil, seeds, berries, fertilizer or rooting hormone in mouths. Students who mouth objects or have pica need one-to-one eyes in the greenhouse. Many plants (holly and mistletoe berries, some houseplants) are poisonous.
- **Chemicals**: rooting hormone and fertilizer with gloves, then wash hands. Pesticides and growth regulators are staff/teacher only; students never spray or handle them.
- **Greenhouse**: wet floors and hoses (slips), heat (water breaks), wet dry potting mix first (dust).

# 👩🏾‍🏫 Staff Guide · Cuttings & Separation (Level 1)

Horticulture 1 · Unit 7 · goes with the class “Propagation Methods (hen & chicks, leaf and stem cuttings)” (4 pts + journal). Level 1 = about 2nd-grade reading. Same activity, same day, same points as the class.

## 1. The pieces

- **Task card**: Modified from the class “Propagation Methods (hen & chicks, leaf and stem cuttings)”. 8 steps, one per box.
- **Prep sheet**: jobs, tools checklist, safety. Do it the day before or at the start.
- **Slides**: jobs, safety, steps, 3 checks.
- **Reflection**: replaces the written parts.
- **Game**: on the class site.

## 2. Prompts while they work

- Show me the first step.
- Which tool do we need now?
- Where do our hands go when the tool is cutting?
- What should we do when we finish?

## 3. Modifications

- Hand-over-hand or model first, then student tries
- Picture task card at the station
- Staff hold and pass every sharp tool

## 4. What to grade (4 pts + journal)

- Did the steps with support (photo proof)
- My Check page done
- Pointing, saying, or circling counts as a full answer.
- Modified grading only as the IEP allows. Check with the case manager.

## 5. Ask

- Mr. Driver (SLE).

## ⚠️ Safety: tools and plants
