👩‍🏫 Staff Guide · Horticulture 1 · Unit 7 Propagation (Level 2)

Level 2 = about 3rd-grade reading. SLE students stay in the class teacher's lesson and use these pieces next to it: same topics, same order, same points.

1. How the pieces line up

Gen ed piece (Canvas: "Unit 7 Propagation: Propagation Methods slides (separation of hen and chicks, leaf cuttings with rooting hormone, stem cuttings), vegetable asexual propagation worksheet, Propagation Journal")	**Level 2 piece**
Propagation Methods slides (hen & chicks, leaf blade cuttings with rooting hormone, stem cuttings)	Slides + notes B + Cuttings lab packet
Vegetable Propagation worksheet	Slide "Vegetable Propagation" + notes C + quiz
Propagation Journal (ongoing)	Cuttings packet reflection = journal entry
Class slides	Deck: 18 slides, Words to Know first, hold-up-1-2-3 checks, recap
Her worksheets (grouped into lessons)	Guided notes: 11 items + key
Class quiz / notes check	Quiz: 10 questions + key
Vocabulary	9 picture cards (cut apart)
—	1 game on the class site: 10 questions + a matching round

2. Supports built in

- Short lines, key words bold, word bank in every notes box
- Quiz: 3 choices, no "all of the above"
- Hands-on first, then name the method
- Level 1: picture sort seed vs. cutting

3. Add these as the IEP allows

- Read-aloud · extended time · separate setting
- Printed slides · videos paused at the "look for" part

4. What to grade

- Vegetable Propagation worksheet: use notes C
- **Notes**: same points as her worksheets for that lesson when complete.
- **Quiz**: score, then scale to the class points.
- These are **modifications** (less content). The IEP must allow modified grading. Check with the case manager.

5. Who to ask

- Mr. Driver (SLE): changes and IEP questions.
- Facts we could not confirm in her files say "check with the class teacher".

🚧 Under construction (check with the class teacher)

- **Textbook Unit 7**: No textbook scan for Unit 7; notes are team-written from her slides (only 2 slides had text).
- **Propagation quiz**: No class quiz in the export; our quiz is team-written.

⚠️ Safety: tools and plants

- **Tools**: students may use all tools (pruners, knives, floral wire, low-temp glue guns) **with an adult right there**. Staff hand tools out, stay at the station, and count them back in. Cut-resistant gloves if possible.
- **Poinsettia sap** is milky and can irritate skin and eyes. Gloves on, no rubbing eyes, wash hands after.
- **Latex**: poinsettias are in the latex family. Students with a latex allergy wear non-latex (nitrile) gloves or skip handling; check health plans.
- **Bees and pollen**: check IEP/health plans for bee-sting or pollen allergies and know where the EpiPen is before greenhouse work.
- **Mouths**: no plants, soil, seeds, berries, fertilizer or rooting hormone in mouths. Students who mouth objects or have pica need one-to-one eyes in the greenhouse. Many plants (holly and mistletoe berries, some houseplants) are poisonous.
- **Chemicals**: rooting hormone and fertilizer with gloves, then wash hands. Pesticides and growth regulators are staff/teacher only; students never spray or handle them.
- **Greenhouse**: wet floors and hoses (slips), heat (water breaks), wet dry potting mix first (dust).

👩🏾‍🏫 Staff Guide · Cuttings & Separation (Level 2)

Horticulture 1 · Unit 7 · goes with the class “Propagation Methods (hen & chicks, leaf and stem cuttings)” (4 pts + journal). Level 2 = about 3rd-grade reading. Same activity, same day, same points as the class.

1. The pieces

- **Task card**: Modified from the class “Propagation Methods (hen & chicks, leaf and stem cuttings)”. 8 steps, one per box.
- **Prep sheet**: jobs, tools checklist, safety. Do it the day before or at the start.
- **Slides**: jobs, safety, steps, 3 checks.
- **Reflection**: replaces the written parts.
- **Game**: on the class site.

2. Prompts while they work

- Show me the first step.
- Which tool do we need now?
- Where do our hands go when the tool is cutting?
- What should we do when we finish?

3. Modifications

- Task card instead of written directions
- Sentence starters on the reflection
- Partner reads directions aloud

4. What to grade (4 pts + journal)

- Steps done (photo proof)
- Reflection: 2 sentences per box
- Pointing, saying, or circling counts as a full answer.
- Modified grading only as the IEP allows. Check with the case manager.

5. Ask

- Mr. Driver (SLE).

⚠️ Safety: tools and plants

- **Tools**: students may use all tools (pruners, knives, floral wire, low-temp glue guns) **with an adult right there**. Staff hand tools out, stay at the station, and count them back in. Cut-resistant gloves if possible.
- **Poinsettia sap** is milky and can irritate skin and eyes. Gloves on, no rubbing eyes, wash hands after.
- **Latex**: poinsettias are in the latex family. Students with a latex allergy wear non-latex (nitrile) gloves or skip handling; check health plans.
- **Bees and pollen**: check IEP/health plans for bee-sting or pollen allergies and know where the EpiPen is before greenhouse work.
- **Mouths**: no plants, soil, seeds, berries, fertilizer or rooting hormone in mouths. Students who mouth objects or have pica need one-to-one eyes in the greenhouse. Many plants (holly and mistletoe berries, some houseplants) are poisonous.
- **Chemicals**: rooting hormone and fertilizer with gloves, then wash hands. Pesticides and growth regulators are staff/teacher only; students never spray or handle them.
- **Greenhouse**: wet floors and hoses (slips), heat (water breaks), wet dry potting mix first (dust).

✂️ Propagation Notes

Horticulture 1 · Unit 7 Propagation · Level 2 guided notes. Use with the class slides.

Name: _____

Fill in each blank with a word from the word bank in that box. Each word is used one time.

A. Two types

1. Growing from seed is _____ propagation.
2. Growing from plant parts is _____ propagation.
3. An exact copy of a plant is a _____.

Word bank: **asexual** **clone** **sexual**

B. Methods

4. Cut a stem just below a _____.
5. Dip cuttings in rooting _____ with gloves on.
6. Match:

Separation	succulent leaf
Division	strawberry
Leaf cutting	pull off offsets
Runner	split a clump

Word bank: **hormone** **node**

C. Vegetables

7. Potatoes grow from pieces with _____.
8. Garlic grows from _____.

Word bank: **cloves** **eyes**

Level 2 version of the gen ed “Propagation Methods + Vegetable Propagation.”

📖 Propagation: Vocabulary Picture Cards (Level 2)

Name: _____

Cut on the dashed lines. Use the cards to match, sort, or quiz a partner.

Propagation

Making new plants, either from seed (sexual) or from plant parts (asexual).

Sexual propagation

Growing plants from seeds. The new plant is a mix of two parents.

Asexual propagation

Growing plants from cuttings, division or runners. The new plant is a copy (clone) of the parent.

Stem cutting

A piece of stem with leaves, placed in mix so it grows roots.

Leaf cutting

A leaf or part of a leaf that grows roots and a new plant (succulents, African violets).

Separation

Pulling off small offsets ('chicks') from a parent plant and potting them.

Division

Cutting or pulling a clump (like an iris or hosta) into pieces with roots.

Rooting hormone

A powder or gel that helps cuttings grow roots faster. Use gloves.

Clone

A plant with exactly the same genes as its parent.

✂️ Cuttings & Separation

Horticulture 1 · Unit 7 · Level 2

Name: _____

Modified from the class “Propagation Methods (hen & chicks, leaf and stem cuttings)”.

🧺 Supplies

- ☐ ✂️ **Pruners** adult hands out
- ☐ 🪴 **Pots + moist mix**
- ☐ 🌿 **Coleus or geranium** for stem cuttings
- ☐ 🧪 **Rooting hormone** in a small cup
- ☐ 🐣 **Hen-and-chicks plant**
- ☐ 🧤 **Gloves** nitrile

✂️ Steps: check each box when you finish

- [ ] 1 🧤 Nitrile gloves on; adult at the station.
- [ ] 2 🐥 Separation: twist off a chick with its roots; pot it.
- [ ] 3 ✂️ Stem cutting: cut 3-4 in. just below a node (cut away from you).
- [ ] 4 🍃 Remove the lower leaves.
- [ ] 5 🧪 Dip the cut end in hormone from the cup (not the jar).
- [ ] 6 🪴 Make a hole with a pencil; insert and firm the mix.
- [ ] 7 🏷️ Label method and date; record in your Propagation Journal.
- [ ] 8 🧼 Return tools to be counted; throw out leftover hormone; wash hands.

✂️ Cuttings & Separation · Prep Sheet

Horticulture 1 · Unit 7 · Level 2

Name: _____

👥 Job roles: circle your job. Initial when it is done.

Job	What you do	Done ✔️
👩‍🌾 **Grower**	Does the main plant job with the tools	
🧺 **Supply helper**	Gets and returns supplies and tools to staff	
📸 **Recorder**	Takes photos and fills in the chart	
🧽 **Clean-up captain**	Sweeps, wipes tables, checks hands are washed	

🧰 Tools and supplies: check when you have it

- ☐ ✂️ **Pruners** adult hands out
- ☐ 🧪 **Rooting hormone** in a small cup
- ☐ 🪴 **Pots + moist mix**
- ☐ 🐣 **Hen-and-chicks plant**
- ☐ 🌿 **Coleus or geranium** for stem cuttings
- ☐ 🧤 **Gloves** nitrile

⚠️ Safety and manners focus

- 🧤 Wear **gloves** for soil, sap, fertilizer and rooting hormone.
- 👄 **Nothing in your mouth**: no plants, soil, seeds or berries.
- ✂️ Sharp tools only with an **adult at the station**. Cut away from your body.
- 🧪 Rooting hormone: **gloves**, no touching face, never in mouth.
- 🌵 Some succulents have spines: handle by the pot.
- 🧼 **Wash hands** when you finish.

✅ Before you start

☐ Gloves ☐ Apron ☐ Adult at station

✂️ Cuttings & Separation · Reflection

Horticulture 1 · Unit 7 · Level 2

Name: _____

📸 My photos / proof

☐ Before photo ☐ During photo ☐ Finished photo

✅ Skills I used today (check all you did)

☐ 🧤 Used gloves and tools safely

☐ 🌱 Finished the Cuttings & Separation steps

☐ 🧽 Cleaned up and returned tools

☐ 🤝 Did my job role

What did you do today, in order?

1. _____
2. _____

Ideas: **First…** **Next…** **Last…**

What did you learn about plants?

✅ Propagation Quiz

Horticulture 1 · Unit 7 · Level 2 (modified). 10 questions · 3 choices each · 1 point each.

Name: _____

Circle the best answer. You may have the questions read aloud.

1. 🌱 Asexual propagation makes…

A. A mix of two parents | B. A clone of the parent | C. Seeds

2. 🌰 Sexual propagation uses…

A. Cuttings | B. Runners | C. Seeds

3. 🎋 Cut a stem cutting just below a…

A. Node | B. Flower | C. Root cap

4. 🧪 Rooting hormone helps cuttings…

A. Make flowers | B. Die | C. Grow roots faster

5. 🐣 Pulling pups off hen and chicks is…

A. Separation | B. Grafting | C. Seeding

6. ✋ Splitting a hosta clump is…

A. Scarification | B. Division | C. Layering

7. 🍃 Before planting, a succulent leaf should…

A. Soak for a week | B. Dry (callus) a few days | C. Be frozen

8. 🥔 Potatoes are propagated with…

A. Pieces that have eyes | B. Leaves | C. Flowers

9. 🍓 Strawberries spread by…

A. Seeds only | B. Bulbs | C. Runners

10. 🧤 Using rooting hormone safely:

A. Gloves, pour a little out, wash hands | B. Dip fingers in the jar | C. Taste it

✂️ Propagation Notes · ANSWER KEY

Horticulture 1 · Unit 7 Propagation · Level 2 guided notes. Use with the class slides.

Name: _____

Fill in each blank with a word from the word bank in that box. Each word is used one time.

A. Two types

1. Growing from seed is **sexual** propagation.
2. Growing from plant parts is **asexual** propagation.
3. An exact copy of a plant is a **clone**.

Word bank: **asexual** · **clone** · **sexual**

B. Methods

4. Cut a stem just below a **node**.
5. Dip cuttings in rooting **hormone** with gloves on.
6. Match:

(Key: Separation → pull off offsets · Division → split a clump · Leaf cutting → succulent leaf · Runner → strawberry)

Separation	succulent leaf
Division	strawberry
Leaf cutting	pull off offsets
Runner	split a clump

Word bank: **hormone** · **node**

C. Vegetables

7. Potatoes grow from pieces with **eyes**.
8. Garlic grows from **cloves**.

Word bank: **cloves** · **eyes**
