👩‍🏫 Staff Guide · Horticulture 1 · Unit 9 Wreaths & Floral Design (Level 3)

Level 3 = resource-room students who can work close to the gen ed lesson. No slide decks: students follow the class teacher's lesson and slides with Level 3 readings, guided notes and a quick check.

1. How the pieces line up

Gen ed lesson	Level 3 piece
Her readings and worksheets	Level 3 reading (5 short paragraphs) + check questions
Class notes	Level 3 guided notes + key
Unit quiz / test	Level 3 quick check + key
Review (Kahoot / Jeopardy)	1 Level 3 game on the class site: 10 questions + a matching round

2. Supports built in

- 🔊 Read aloud on the reading and notes pages (tap the button)
- Key terms listed at the top of the notes
- Short-answer lines sized for 1-2 sentences

3. What to grade

- Notes and reading checks: same points as her worksheets for that lesson
- Quick check: score, then scale to her test points
- Modified grading only as the IEP allows. Check with the case manager.

4. Who to ask

- Mr. Driver (SLE): changes and IEP questions.
- Facts we could not confirm say “check with the class teacher”.

🚧 Under construction (check with the class teacher)

- **Textbook Units 46 & 49**: Wreath and floral design chapters are not scanned; notes are team-written.
- **Rose Sale pricing / Painted Pots / Missouri Botanical Garden**: Title only in the export.
- **Guest speaker**: Zoom link with passcode removed; not posted.

💗 Note

Wreath materials: holly and mistletoe berries are poisonous; students who mouth objects need one-to-one supervision. Hot glue: low-temp only. Pumpkin carving: staff only.

⚠️ Safety: tools and plants

- **Tools**: students may use all tools (pruners, knives, floral wire, low-temp glue guns) **with an adult right there**. Staff hand tools out, stay at the station, and count them back in. Cut-resistant gloves if possible.
- **Poinsettia sap** is milky and can irritate skin and eyes. Gloves on, no rubbing eyes, wash hands after.
- **Latex**: poinsettias are in the latex family. Students with a latex allergy wear non-latex (nitrile) gloves or skip handling; check health plans.
- **Bees and pollen**: check IEP/health plans for bee-sting or pollen allergies and know where the EpiPen is before greenhouse work.
- **Mouths**: no plants, soil, seeds, berries, fertilizer or rooting hormone in mouths. Students who mouth objects or have pica need one-to-one eyes in the greenhouse. Many plants (holly and mistletoe berries, some houseplants) are poisonous.
- **Chemicals**: rooting hormone and fertilizer with gloves, then wash hands. Pesticides and growth regulators are staff/teacher only; students never spray or handle them.
- **Greenhouse**: wet floors and hoses (slips), heat (water breaks), wet dry potting mix first (dust).

💐 Wreaths & Floral Design: Guided Notes

Horticulture 1 · Unit 9 · Level 3 (closer to the class work) · goes with Wreaths/Swags, Harvest Centerpiece, Succulent Planter, plant sale

Name: _____

Use the class slides and your reading. Key words:

wreath | *swag* | *floral wire* | *balance* | *focal point* | *proportion* | *color harmony* | *centerpiece* | *succulent* | *inventory* | *pricing*

A. Wreaths and swags

1. Bundles are attached with floral or paddle _____.

2. How is a swag different from a wreath?

_____

_____

B. Design principles

3. Fill in the table.

Principle	Meaning
Balance	
Focal point	
Proportion	
Color harmony	

C. Pricing

4. **Selling price**

> Price = materials + labor + profit
> Example: $4 + $2 + $1 = $7

a) Planter: $3.50 + $2.00 + $1.50 _____

b) Wreath: $8 + $5 + $3 _____

💐 Wreaths & Floral Design: Reading

Horticulture 1 · Unit 9 · Level 3 (closer to the class work) · goes with Wreaths/Swags, Harvest Centerpiece, Succulent Planter, plant sale

Name: _____

Seasonal Projects and Floral Design

Many horticulture businesses earn much of their money from seasonal products. In fall and winter, growers and florists make harvest centerpieces, wreaths and swags. A wreath is a circular frame covered with bundles of evergreen tips, attached with floral or paddle wire. Each bundle overlaps the one before so the wire is hidden. A swag is a flat bundle of greens tied at the top and hung on a door or wall.

Floral designers follow design principles. Balance means the arrangement looks evenly weighted. The focal point is the area that draws the eye first. Proportion means the size of the arrangement fits its container and setting. Color harmony means the colors work well together. A table centerpiece, like a harvest arrangement in a hollowed pumpkin, is kept low so guests can see each other.

Succulents, such as jade and echeveria, store water in thick leaves. They grow best in fast-draining cactus mix and need only light watering; too much water causes rot. Succulent planters are popular sale items. Some succulents and cacti have spines, so they should be handled by the pot.

To sell products, growers keep an inventory and set prices. A simple price adds the cost of materials, the cost of labor and a profit. Safety matters in seasonal projects: holly and mistletoe berries are poisonous, pruners and wire require care, glue guns should be low-temperature and staff-run, and pumpkins are carved by staff.

Check your reading

1. Describe how a wreath is built.

2. Explain two floral design principles.

3. How is a selling price calculated?

🌵 Succulent Planter & Plant Sale: Lab Sheet

Horticulture 1 · Unit 9 · Level 3 · goes with Succulent Garden Planter + Inventory/Advertising

Name: _____

Question: What price should we charge for a succulent planter to make a profit?

Materials

pot, cactus mix, 3 succulents, gravel, calculator

⚠️ Safety

- Gloves; handle spiny plants by the pot
- Money handled with staff
- Wash hands

Prediction

What price do you think customers will pay?

_____

_____

Procedure

1. Build the planter.
2. List material costs.
3. Estimate labor and profit.
4. Calculate price; add to inventory.

Data

Item	Cost
Pot	
Mix + gravel	
3 succulents	
Labor	
Profit	
Price	

Analysis (Claim, Evidence, Reasoning)

1. Claim: what price will you set? Evidence (costs) and reasoning (what customers pay, profit for FFA).

🎄 Wreath & Harvest Centerpiece: Lab Sheet

Horticulture 1 · Unit 9 · Level 3 · goes with Wreaths/Swags + Harvest Centerpiece

Name: _____

Question: How do design principles change how a wreath or centerpiece looks?

Materials

wreath frame, evergreen tips, paddle wire, pruners (staff-supervised), ribbon

⚠️ Safety

- Pruners with an adult; cut away from body
- Low-temp glue at staff station
- Berries are poisonous

Prediction

Where will you put the focal point and why?

_____

_____

Procedure

1. Cut tips and make bundles.
2. Wire bundles, overlapping.
3. Choose focal point; add bow/cones.
4. Check balance and proportion; adjust.

Data

Principle	How I used it
Balance	
Focal point	
Proportion	
Color harmony	

Analysis (Claim, Evidence, Reasoning)

1. Claim: which principle made the biggest difference in your design? Evidence and reasoning.

💐 Wreaths & Floral Design: Quick Check

Horticulture 1 · Unit 9 · Level 3 (closer to the class work) · goes with Wreaths/Swags, Harvest Centerpiece, Succulent Planter, plant sale

Name: _____

Multiple choice and short answer. You may have it read aloud.

1. Wreath bundles overlap in order to…

A. Use less greens | B. Make it square | C. Hide the wire

2. The area that draws the eye first is the…

A. Focal point | B. Proportion | C. Container

3. Succulents should be planted in…

A. Heavy clay | B. Standing water | C. Fast-draining cactus mix

4. Which wreath material is poisonous?

A. Holly berries | B. Pine tips | C. Ribbon

5. Materials cost $6, labor $4, profit $2. What is the price?

_____

6. Why are centerpieces kept low?

_____

💐 Wreaths & Floral Design: Guided Notes · ANSWER KEY

Horticulture 1 · Unit 9 · Level 3 (closer to the class work) · goes with Wreaths/Swags, Harvest Centerpiece, Succulent Planter, plant sale

Name: _____

Use the class slides and your reading. Key words:

wreath | *swag* | *floral wire* | *balance* | *focal point* | *proportion* | *color harmony* | *centerpiece* | *succulent* | *inventory* | *pricing*

A. Wreaths and swags

1. Bundles are attached with floral or paddle **wire** .

2. How is a swag different from a wreath?
A swag is a flat bundle tied at the top; a wreath is a circular frame.

B. Design principles

3. Fill in the table.

Principle	Meaning
Balance	**evenly weighted**
Focal point	**draws the eye**
Proportion	**size fits container**
Color harmony	**colors work together**

C. Pricing

4. **Selling price**

> Price = materials + labor + profit
> Example: $4 + $2 + $1 = $7

a) Planter: $3.50 + $2.00 + $1.50 **$7.00**

b) Wreath: $8 + $5 + $3 **$16**

🔑 *Key written by our team from the class teacher's worksheets and slides, please check.*

🌵 Succulent Planter & Plant Sale: Lab Sheet · ANSWER KEY

Horticulture 1 · Unit 9 · Level 3 · goes with Succulent Garden Planter + Inventory/Advertising

Name: _____

Question: What price should we charge for a succulent planter to make a profit?

Materials

pot, cactus mix, 3 succulents, gravel, calculator

⚠️ Safety

- Gloves; handle spiny plants by the pot
- Money handled with staff
- Wash hands

Prediction

What price do you think customers will pay?
Answers vary ($6-$12).

Procedure

1. Build the planter.
2. List material costs.
3. Estimate labor and profit.
4. Calculate price; add to inventory.

Data

Item	Cost
Pot	**$1.00**
Mix + gravel	**$0.50**
3 succulents	**$3.00**
Labor	**$2.00**
Profit	**$1.50**
Price	**$8.00**

Expected results (your class data may differ).

Analysis (Claim, Evidence, Reasoning)

1. Claim: what price will you set? Evidence (costs) and reasoning (what customers pay, profit for FFA).
Example: $8 covers $6.50 cost plus $1.50 profit.

🔑 *Key written by our team from the class teacher's lab sheets, please check.*

🎄 Wreath & Harvest Centerpiece: Lab Sheet · ANSWER KEY

Horticulture 1 · Unit 9 · Level 3 · goes with Wreaths/Swags + Harvest Centerpiece

Name: _____

Question: How do design principles change how a wreath or centerpiece looks?

Materials

wreath frame, evergreen tips, paddle wire, pruners (staff-supervised), ribbon

⚠️ Safety

- Pruners with an adult; cut away from body
- Low-temp glue at staff station
- Berries are poisonous

Prediction

Where will you put the focal point and why?
Answers vary; often bottom-center or upper-left.

Procedure

1. Cut tips and make bundles.
2. Wire bundles, overlapping.
3. Choose focal point; add bow/cones.
4. Check balance and proportion; adjust.

Data

Principle	How I used it
Balance	**even bundles all around**
Focal point	**bow at bottom center**
Proportion	**bow sized to frame**
Color harmony	**red bow with green**

Expected results (your class data may differ).

Analysis (Claim, Evidence, Reasoning)

1. Claim: which principle made the biggest difference in your design? Evidence and reasoning.
Answers vary with a reason.

🔑 *Key written by our team from the class teacher's lab sheets, please check.*
