2. Supports built in

- **Read aloud** every line; student may point, say, or circle (point = full answer)
- One idea per slide; big pictures; 2–3 picture choices
- Check the family opt-out list first (Healthy Youth Act)
- Factual, non-judgmental words only

3. Add these as the IEP allows

- Read-aloud · extended time · separate setting
- Printed slides · videos paused at the "look for" part
- Cover one choice to make it 2

4. What to grade

- Quick check stands in for the STI/contraception quiz
- Opted-out students: alternate assignment from Mr. Finstuen
- **Notes**: same points as his worksheets for that lesson when complete.
- **Quiz**: score, then scale to the class points.
- These are **modifications** (less content). The IEP must allow modified grading. Check with the case manager.

5. Who to ask

- Mr. Driver (SLE): changes and IEP questions.
- Facts we could not confirm in his files say "check with Mr. Finstuen".

🚧 Under construction (check with Mr. Finstuen)

- **Contraception research chart**: Turned in through an outside tool; the chart template is not in the export.
- **STI fact-sheet project**: Student project slides are not in the export.
- **Guest speaker (health clinic) notes**: Speaker name and questions are not in the export.

💗 Sensitive topic note

FAMILY OPT-OUT: Under Washington's Healthy Youth Act, families may opt their student out of sexual health lessons. Check Mr. Finstuen's opt-out list, and give opted-out students the alternate assignment. The Healthy Youth Act requires teaching abstinence together with medically accurate information on other methods (abstinence may not be taught alone). Use factual, non-judgmental words. No demonstrations on models; the condom steps are a numbered list only. Students never share personal experiences. If a student discloses abuse, you are a mandated reporter: tell Mr. Driver and the school counselor the same day.
