🩺 Last unit: getting care and making a plan.

🚑 Today: preventing injuries and helping in an emergency.

❓ What is one way you stay safe in a car?

Words to Know

Words to Know

Injury prevention

Steps that stop injuries before they happen, like helmets and seat belts.

911

Call for danger to life: not breathing, bad bleeding, fire, crime happening.

First aid

The first help given to a hurt or sick person before a doctor.

Heart attack

Blood flow to the heart is blocked. The person is awake, with chest pain.

Words to Know

More Words to Know

💔 **Cardiac arrest**: The heart suddenly stops pumping. The person collapses and is not breathing normally.

👐 **CPR**: Hands-only CPR: push hard (2 inches) and fast (100-120 a minute) in the center of the chest.

⚡ **AED**: Automated external defibrillator. It talks you through each step.

🫁 **Choking**: Something blocks the airway. Give abdominal thrusts (Heimlich) if they can't cough or talk.
