# 👩‍🏫 Staff Guide · Health · Unit 6 Safety, First Aid & CPR (Level 2)

Level 2 = about 3rd-grade reading. SLE students stay in Mr. Finstuen's lesson and use these pieces next to it: same topics, same order, same points.

## 1. How the pieces line up

## 2. Supports built in

- Short lines, key words bold, word bank in every notes box
- Quiz: 3 choices, no "all of the above"
- Manikin only for CPR; staff models first
- Any student may step out of a scenario

## 3. Add these as the IEP allows

- Read-aloud · extended time · separate setting
- Printed slides · videos paused at the "look for" part

## 4. What to grade

- Notes stand in for first aid and CPR worksheets
- Summer safety poster: 3 pictures + 3 tips = full credit
- **Notes**: same points as his worksheets for that lesson when complete.
- **Quiz**: score, then scale to the class points.
- These are **modifications** (less content). The IEP must allow modified grading. Check with the case manager.

## 5. Who to ask

- Mr. Driver (SLE): changes and IEP questions.
- Facts we could not confirm in his files say "check with Mr. Finstuen".

## 🚧 Under construction (check with Mr. Finstuen)

- **8 emergency scenario cards**: His scenario titles are in the export but not the full cards; we use 3 written scenarios at Level 3.
- **CPR training video + certification steps**: Video and any certificate process are not in the export.
- **Summer Safety Project rubric**: Turned in through an outside tool; the rubric is not in the export.

## 💗 Sensitive topic note

Some students may have been in an emergency or lost someone. Let any student step out of a scenario. CPR practice is on a manikin only, with staff; never on a person. Students do not need to share past emergencies.
