👩‍🏫 Staff Guide · Chemistry · Unit 0 Lab Safety & Equipment (Level 1)

Level 1 = about 2nd-grade reading, with emoji and pictures. SLE students stay in Mr. Brittle's lesson and use these pieces next to it: same topics, same order, same points.

1. How the pieces line up

Gen ed piece (Canvas: "Start of year: Syllabus & Safety Contract, Safety Presentation, L0.1 Lab Equipment Activity, L0.2 Elements Reacting (demos), L0.3 Equipment Practice (stations)")	**Level 1 piece**
Syllabus & Safety Contract (rules, clothing, accidents, chemicals, glassware)	Slides "Lab Rules", "Goggles", "Accidents" + notes parts A-B
Safety Presentation (🚧 not in the export)	Our slides use his Safety Contract rules instead
L0.1 Lab Equipment Activity (ClEvR poster)	Slides "Lab Tools" + vocabulary picture cards; Level 1 names the tool and its job, no ClEvR
L0.2 Elements Reacting (teacher demos: sodium, acid)	Student watches with goggles on; game + quiz safety questions
L0.3 Equipment Practice (8 stations)	Slides "Measuring tools" / "Hazard symbols" + notes part C. Staff at stations 7-8 (hot plate, NaOH)
Class slides	Deck: 19 slides, Words to Know first, "point to the picture" checks, recap
His worksheets (grouped into lessons)	Guided notes: 15 items + key
Class quiz / notes check	Quiz: 8 questions + key
Vocabulary	8 picture cards (cut apart)
—	1 game on the class site: 10 questions + a matching round

2. Supports built in

- **Read aloud** every line; student may point, say, or circle (point = full answer)
- One idea per slide; big pictures; 2–3 picture choices
- Do a room walk: point to the goggles, eyewash, fire extinguisher and exits
- Practice "Code one" out loud once
- Picture anchors: 🥽 goggles, 🚿 eyewash, 🧯 extinguisher, ⚖️ balance

3. Add these as the IEP allows

- Read-aloud · extended time · separate setting
- Printed slides · videos paused at the "look for" part
- Cover one choice to make it 2

4. What to grade

- Notes stand in for the L0.1 activity and L0.3 station sheet (same points when complete)
- Safety contract: 🚧 ask Mr. Brittle if SLE students sign his contract
- **Notes**: same points as his worksheets for that lesson when complete.
- **Quiz**: score, then scale to the class points.
- These are **modifications** (less content). The IEP must allow modified grading. Check with the case manager.

5. Who to ask

- Mr. Driver (SLE): changes and IEP questions.
- Facts we could not confirm in her files say "check with Mr. Brittle".

🚧 Under construction (check with Mr. Brittle)

- **Where the safety equipment is in his room**: We do not know where the goggles, eyewash, safety shower, fire extinguisher, fire blanket, first aid kit and exits are in Mr. Brittle's room. Staff: walk the room and fill in the "Find it in our room" box.
- **Safety Presentation**: His Week 2 "Safety Presentation" is not in the export. Our slides are built from his Safety Contract rules.
- **Safety Contract**: Our notes do not replace his signed Syllabus & Safety Contract. Ask if SLE students sign his contract (read aloud) or a shorter one.
- **L0.3 stations**: Ask which of the 8 L0.3 stations Level 1-3 students should do. Stations 7-8 use a hot plate and NaOH (corrosive); staff should be at the station.
