Lightning lessons 7-9 notes

Chemistry · Unit 1B Electric Forces · Level 2 guided notes. Use with the class slides.

Name: _____

Fill in each blank with a word from the word bank in that box. Each word is used one time.

A. Attract and repel (L1.7, L1.9)

1. Opposite charges _____.
2. Like charges _____.
3. Circle the pairs that repel:

− and − | + and − | + and +

Word bank: **attract** **repel**

B. Coulomb's law (L1.7)

4. More charge makes the force _____.
5. More distance makes the force _____.
6. Match the change to what happens:

double the charge	force gets stronger
double the distance	force gets 4× weaker
move closer	force gets 2× stronger

Word bank: **stronger** **weaker**

C. Big numbers and neutral objects (L1.7, L1.8)

7. 2×10^3 means 2 with three _____: 2,000.
8. A neutral object near a charged balloon becomes _____.
9. Number the steps (1-4):

_____ The balloon gets extra electrons

_____ The paper jumps to the balloon

_____ Rub the balloon on hair

_____ Paper's electrons shift away

Word bank: **polarized** **zeros**

Level 2 version of the gen ed "L1.7 Coulomb's Law, L1.8 Neutral Interactions, L1.9 Review."
