Chemistry · Unit 1C · Level 1

The Strike & Staying Safe

TODAY'S PLAN

- 🌩️ Storm cloud
- ⚡ The strike
- 🔌 Lets it through
- 🏠 Stay safe

Review · 5 minutes

Quick Review

🧲 Opposites **pull** together.

⚡ Lightning is a big **spark**.

👉 Point: lightning comes from ⛈️ or ☀️?

Words to Know

Words to Know

Energy
power to make things happen

Thunder
the boom after lightning

Conductor
lets electricity through

Insulator
stops electricity

Steps

A Storm Cloud Gets Ready

1. 🌩️ Ice **bumps** in the cloud.
2. ➖ The **bottom** gets minus.
3. 🔋 **Energy** builds up.
4. ⚡ Then: **ZAP!**

Learn

The Strike

⚡ Electrons **jump** to the ground.

💡 We see a bright **flash**.

🔥 The air gets very **hot**.

🌩️ We hear **thunder**: BOOM!

🃏 Check 1 of 3

What sound comes after lightning?

Point to the picture!

🎵 Music

⛈️ Thunder

✅ Answer · Card 1 of 3

Thunder

Lightning makes thunder.

Compare

Lets It Through or Stops It?

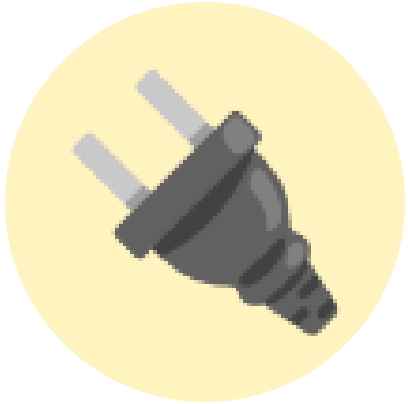

Lets it through

- metal
- salt water

Stops it

- rubber
- plastic

🃏 Check 2 of 3

Which lets electricity through?

Point to the picture!

🔩 Metal

🧤 Rubber glove

✅ Answer · Card 2 of 3

Metal

Metal is a conductor.

Learn

No Swimming in a Storm

🧂 **Salt water** lets electricity through.

🚤 Lightning can travel in **water**.

🚫 Get **out of the water** in a storm.

Learn

Lightning Rod

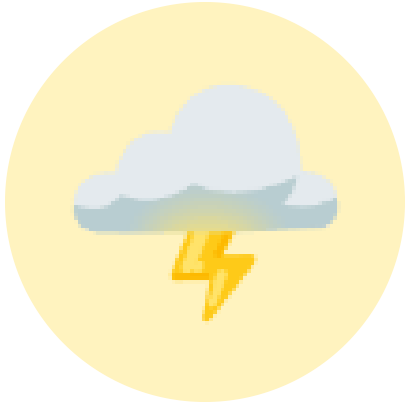

🏠 A **metal rod** on the roof.

⚡ Lightning goes down the **rod**.

🌍 It goes into the **ground**, not the house.

🃏 Check 3 of 3

Where should you go in a storm?

Point to the picture!

🏠 Inside a building

🌳 Under a tree

✅ Answer · Card 3 of 3

Inside a building

Go inside. Trees are not safe.

Learn

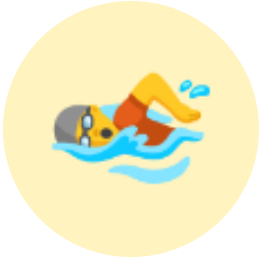

Stay Safe

Hear thunder?
go inside

Building or car
safe places

Water
get out

Tall trees
stay away

Wrap-Up

Recap

Cloud
charge builds

Strike
electrons jump

Metal
lets it through

Inside
stay safe

Wrap-Up

Great Job!

⚡ Electrons jump to the ground.

🔌 Metal lets electricity through.

🏠 When thunder roars, go indoors!
