📖 The Strike & Staying Safe: Vocabulary Picture Cards (Level 2)

Name: _____

Cut on the dashed lines. Use the cards to match, sort, or quiz a partner.

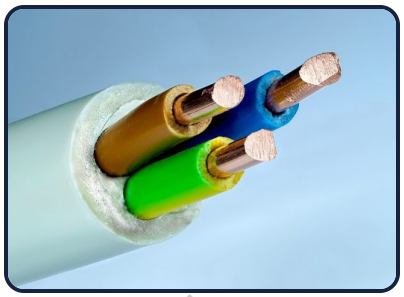

Energy

The ability to cause change. Stored (potential) energy in the cloud turns into heat, light and sound.

Thunder

The boom made when lightning heats the air so fast that it expands.

Conductor

A material that lets electrons move through it easily, like metal or salt water.

Insulator

A material that does not let electrons move easily, like rubber, plastic or dry wood.

Salt water

Salt breaks into charged particles (ions) in water, so salt water conducts electricity.

Lightning rod

A metal rod on a roof. It gives lightning a safe path to the ground.

Ground

The earth. Lightning's charge flows into the ground.

Current

The flow of charge (electrons or ions) through a material.
